Sect of All Saints, Supreme of All Worlds, mentor de la révolution mondiale de la philosophie, leader mondial Fangruida (Smith) Gorris.P

Secta de Todos los Santos, Supremo de todos los mundos, mentor de la revolución de la filosofía mundial, líder mundial Fangruida (Smith) Gorris.P

Seita de Todos os Santos, Suprema de Todos os Mundos, mentora da revolução da filosofia mundial, líder mundial Fangruida (Smith) Gorris.P

Fangruida, (FD smith), was born in Shanghai on May 14, 1949 (May 13, 1950), and was once named Tang Jiang, Wu, Lu Yu, Tang Haijiang, Hao Yan, Xu Guokai, Fangda, etc., briefly Used Smith, Porter, etc. (I used this name, alias, pseudonym (writing, etc.) for short periods of time when I was studying and researching in Europe, America, Japan, Russia, India, Pakistan, Australia, Africa, Africa, and other countries.) Smith was a craftsman and blacksmith in English. Is also the last name. Fang has traveled all over the world. He traveled to various countries in his early years and youth. He is good at learning all the achievements of civilization and wisdom of all mankind. He has studied 25 languages, especially in Europe, America, Russia, Japan, France, Italy, India, Pakistan, Africa, and Arabia. And work to benefit a lot. It is not an exaggeration to truly become a world citizen, indeed. He is good at learning, hard-working, sleepless and forgetful, day and night, sometimes all night long. And he can think bidirectionally, multi-directionally, multi-prongedly, his brain intelligence is beyond ordinary people, and it is almost unimaginable. No one in the world, the world ' s humanity for tens of thousands of years, thousands of years, there is no such talent. No one is disproportionate to him. We are very childish and ridiculous in the presence of the master, just like a young child who has not smelled of milk. It is difficult for anyone in the world to reach and surpass the breadth, height, and depth of what he is involved in. It is difficult for anyone to compare and substitute. Fréda is a world-renowned physicist, astronomer, geologist, biologist, cosmologist, astronomer, medical scientist, inventor, philosopher, thinker, religious scientist, sociologist, anthropologist , Economists, writers, composers, musicians, educators, linguists, mathematical logicians, etc., writes a lot, Fang Ruidatism as its representative, affecting thousands of people all over the world for thousands of years or even thousands For thousands

of years, regardless of region, regardless of race, religion, belief, language, country, ethnicity, color, rich or poor, it affects all humanity in the world. Fang Ruida advocates freedom and reason, and opposes treating himself as a genius and a god. His famous saying: "There is no superman in the world. There are only farmer and hardworking craftsman who work hard in the vast world forever." His rigorous and scientific spirit, broad knowledge and wisdom, and selfless criticism It is indeed a model for the world and a great banner.

وو ، Tangjiang في شنغهاي في 14 مايو 1949 (13 مايو 1950) ، وكان اسمه مرة واحدة (سميث FD) ، Fangruida ولد وما Porter و Smith وما إلى ذلك ، لفترة وجيزة استخدمت ، Fangda ، هاو يان ، شو غوكاي ، Haijiang ، لو يو ، تانغ إلى ذلك (استخدمت هذا الاسم والأسماء المستعارة والأسماء المستعارة (الكتابة ، وما إلى ذلك) لفترات قصيرة من الوقت عندما كنت أدرس وأبحث في أوروبا وأمريكا واليابان وروسيا والهند وباكستان وأستراليا وأفريقيا وأفريقيا ودول أخرى). كان سميث حرفيًا وصانع حداد باللغة الإنجليزية. هو أيضا اسم العائلة. لقد سافر فانغ إلى جميع أنحاء العالم ، حيث سافر إلى مختلف البلدان في سنواته الأولى وشبابه ، وهو يتعلم كل إنجازات الحضارة والحكمة للبشرية جمعاء ، ودرس 25 لغة ، وخاصة في أوروبا وأمريكا وروسيا واليابان وفرنسا وإيطاليا والهند وباكستان وأفريقيا والجزيرة العربية. والعمل على الاستفادة كثيرا. ليس من قبيل المبالغة أن نصبح مواطنًا عالميًا بالفعل. إنه جيد في التعلم ، والعمل الجاد ، بلا نوم ، والنسيان ، ليل نهار ، وأحيانًا طوال الليل. ويمكنه أن يفكر ثنائي الاتجاه ، متعدد الاتجاهات ، متعدد الجوانب ، أن ذكاءه في الدماغ يتجاوز الناس العاديين ، وهو أمر لا يمكن تصويره تقريبًا. لا أحد في العالم ، الإنسانية في العالم لعشرات الآلاف من السنين ، وآلاف السنين ، لا توجد مثل هذه الموهبة. لا أحد غير متناسب معه. نحن طفوليون وسخيفون للغاية بحضور السيد ، تمامًا مثل الطفل الذي لم يشم رائحة اللين. من الصعب على أي شخص في العالم الوصول إلى ما هو متورط فيه والارتفاع فيه وعمقه. من الصعب على أي شخص المقارنة والاستبدال. فريدا هو عالم فيزياء شهير عالميًا ، وعلم فلك ، وجيولوجي ، وعالم أحياء ، وعلم فلك ، وعلم فلك ، وعالم طبي ، ومخترع ، وفيلسوف ، ومفكر ، وعالم ديني ، وعلم اجتماع ، وعلم أنثروبولوجيا. ، الاقتصاديين والكتاب والملحنين كممثل لها ، والتي تؤثر Ruidaism والموسيقيين والمربين واللغويين وعلماء الرياضيات ، وما إلى ذلك ، يكتب الكثير ، فانغ على الآلاف من الناس في جميع أنحاء العالم لآلاف السنين أو حتى الآلاف لآلاف السنين ، بغض النظر عن المنطقة ، بغض النظر عن العرق أو الدين أو المعتقد أو اللغة أو البلد أو العرق أو اللون أو الأغنياء أو الفقراء ، فهي تؤثر على البشرية جمعاء في العالم. يدافع فانغ رويدا عن الحرية والعقل ، ويعارض معاملة نفسه على أنه عبقري وإله. مثله الشهير: "لا يوجد سوبرمان في العالم. لا يوجد سوى حرفيين سيعملون دائمًا بجد في العالم الواسع والعمل غير الأناني". روحه العلمية والعلمية والمعرفة والحكمة الواسعة وروح النقد غير

Fangruida (FD Smith) wurde am 14. Mai 1949 (13. Mai 1950) in Shanghai geboren und hieß einst kurz Tangjiang, Wu, Lu Yu, Tang Haijiang, Hao Yan, Xu Guokai, Fangda usw. Benutzte Smith, Porter usw. (Ich habe diesen Namen, Alias, Pseudonym (Schreiben usw.) für kurze Zeit verwendet, als ich in Europa, Amerika, Japan, Russland, Indien, Pakistan, Australien, Afrika, Afrika und anderen Ländern studierte und forschte.) Smith war ein Handwerker und Schmied auf Englisch. Ist auch der Nachname. Fang ist um die ganze Welt gereist. In seinen frühen Jahren und in seiner Jugend reiste er in verschiedene Länder. Er ist gut darin, alle Errungenschaften der Zivilisation und Weisheit der gesamten Menschheit zu erlernen. Er hat 25 Sprachen studiert, insbesondere in Europa, Amerika, Russland, Japan, Frankreich, Italien, Indien, Pakistan, Afrika und Arabien Und arbeiten, um viel zu profitieren. Es ist keine Übertreibung, wirklich Weltbürger zu werden. Er kann gut lernen, fleißig, schlaflos und vergesslich, Tag und Nacht, manchmal die ganze Nacht.

Und er kann bidirektional, multidirektional, vielzackig denken, seine Gehirntelligenz ist jenseits gewöhnlicher Menschen und fast unvorstellbar. Niemand auf der Welt, die Menschheit der Welt seit Zehntausenden von Jahren, Tausenden von Jahren, es gibt kein solches Talent. Niemand ist unverhältnismäßig zu ihm. Wir sind in Gegenwart des Meisters sehr kindisch und lächerlich, genau wie ein kleines Kind, das nicht nach Milch gerochen hat. Es ist für jeden auf der Welt schwierig, die Breite, Höhe und Tiefe dessen, woran er beteiligt ist, zu erreichen und zu übertreffen. Es ist für niemanden schwierig zu vergleichen und zu ersetzen. Fréda ist eine weltbekannte Physikerin, Astronomin, Geologin, Biologin, Kosmologin, Astronomin, Medizinwissenschaftlerin, Erfinderin, Philosophin, Denkerin, Religionswissenschaftlerin, Soziologin und Anthropologin Ökonomen, Schriftsteller, Komponisten, Musiker, Pädagogen, Linguisten, mathematische Logiker usw. schreiben viel, Fang Ruidaism als sein Vertreter, der Tausende von Menschen auf der ganzen Welt seit Tausenden von Jahren oder sogar Tausenden betrifft Seit Tausenden von Jahren betrifft es die gesamte Menschheit der Welt, unabhängig von Region, Rasse, Religion, Weltanschauung, Sprache, Land, ethnischer Zugehörigkeit, Hautfarbe, Arm oder Reich. Fang Ruida setzt sich für Freiheit und Vernunft ein und lehnt es ab, sich als Genie und Gott zu behandeln. Sein berühmtes Sprichwort: "Es gibt keinen Übermenschen auf der Welt. Es gibt nur Handwerker, die immer hart in der weiten Welt arbeiten und selbstlos arbeiten." Sein rigoroser und wissenschaftlicher Geist, sein breites Wissen und seine Weisheit und sein selbstloser Kritikgeist Es ist in der Tat ein Modell für die Welt und ein großes Banner.

Фанг Руйда, (Ф.Д. Смит), родился в Шанхае 14 мая 1949 года (13 мая 1950 года) и когда-то был кратко назван Танцзян, Ву, Лу Ю, Тан Хайцзян, Хао Янь, Сюй Гуокай, Фангда и т. Д. Использовал Смит, Портер и т. Д. (Я использовал это имя, псевдоним, псевдоним (написание и т. Д.) В течение коротких периодов времени, когда я учился и исследовал в Европе, Америке, Японии, России, Индии, Пакистане, Австралии, Африке, Африке и других странах.) Также фамилия. Фанг путешествовал по всему миру. Он побывал в разных странах в молодости и молодости. Он хорошо изучил все достижения цивилизации и мудрости всего человечества. Он изучил 25 языков, особенно в Европе, Америке, России, Японии, Франции, Италии, Индии, Пакистане, Африке и Аравии. И работа приносит много пользы. Это не преувеличение, чтобы действительно стать гражданином мира, действительно. Он хорош в учебе, трудолюбив, бессонен и забывчив, днем и ночью, иногда всю ночь напролет. И он может мыслить двенадцатью направлениями, разнонаправленно, многогранно, его интеллект мозга выше обычных людей, и это почти невообразимо. Никто в мире, человечество в течение десятков тысяч лет,

тысяч лет, такого таланта не существует. Никто не несоизмерен ему. Мы очень ребяческие и смешные в присутствии мастера, как маленький ребенок, который еще не пахнул. Для любого человека в мире трудно достичь и превзойти широту, высоту и глубину того, чем он занимается. Сложно сравнивать и заменять. Фрида является всемирно известным физиком, астрономом, геологом, биологом, космологом, астрономом, ученым-медиком, изобретателем, философом, мыслителем, религиозным деятелем, социологом, антропологом. Экономисты, писатели, композиторы, музыканты, педагоги, лингвисты, математические логики и т. Д. Много пишут, клан-руидизм как его представитель, затрагивающий тысячи людей во всем мире на протяжении тысячелетий или даже тысяч. На протяжении тысячелетий, независимо от региона, независимо от расы, религии, убеждений, языка, страны, этнической принадлежности, цвета кожи, богатых или бедных, оно затрагивает все человечество в мире. Клык Руида защищает свободу и разум, а также не считает себя гением и богом. Его известное высказывание: «В мире нет сверхчеловека. Есть только мастера, которые всегда будут усердно трудиться в огромном мире и самоотверженном труде». Его строгий и научный дух, обширные знания и мудрость, и самоотверженный дух критики. Это действительно модель для мира и отличный баннер.

Fangruida (FD Smith), est né à Shanghai le 14 mai 1949 (13 mai 1950) et a été nommé Tangjiang, Wu, Lu Yu, Tang Haijiang, Hao Yan, Xu Guokai, Fangda, etc., brièvement J'ai utilisé Smith, Porter, etc. (j'ai utilisé ce nom, alias, pseudonyme (écriture, etc.) pendant de courtes périodes lorsque j'étudiais et recherchais en Europe, en Amérique, au Japon, en Russie, en Inde, au Pakistan, en Australie, en Afrique, en Afrique et dans d'autres pays.) Smith était un artisan et forgeron en anglais. Est également le nom de famille. Fang a voyagé partout dans le monde. Il a voyagé dans divers pays au cours de ses premières années et de sa jeunesse. Il est bon pour apprendre toutes les réalisations de la civilisation et de la sagesse de toute l'humanité. Il a étudié 25 langues, en particulier en Europe, en Amérique, en Russie, au Japon, en France, en Italie, en Inde, au Pakistan, en Afrique et en Arabie. Et travailler pour en bénéficier beaucoup. Il n'est pas exagéré de devenir vraiment un citoyen du monde, en effet. Il est bon pour apprendre, travailleur, insomnie et oublieux, jour et nuit, parfois toute la nuit. Et il peut penser de manière bidirectionnelle, multidirectionnelle, multidimensionnelle, son intelligence cérébrale est au-delà des gens ordinaires, et c'est presque inimaginable. Personne au monde, l'humanité du monde depuis des dizaines de milliers d'années, des milliers d'années, il n'y a pas un tel talent. Personne ne lui est disproportionné. Nous sommes très enfantins et ridicules en présence du maître, tout comme un jeune enfant qui n'a pas senti le lait. Il est difficile pour quiconque dans le monde d'atteindre et de dépasser l'étendue, la hauteur et la profondeur de ses activités. Il est difficile pour quiconque de comparer et de remplacer. Fréda est un physicien de renommée mondiale, astronome, géologue, biologiste, cosmologiste, astronome, scientifique médical, inventeur, philosophe, penseur, scientifique religieux, sociologue, anthropologue, Économistes, écrivains, compositeurs, musiciens, éducateurs, linguistes, logiciens mathématiques, etc., écrit beaucoup, Fang Ruidaism en tant que représentant, affectant des milliers de personnes dans le monde depuis des milliers d'années, voire des milliers Pendant des milliers d'années, quelle que soit la région, quelle que soit la race, la religion, la croyance, la langue, le pays, l'ethnie, la couleur, les riches ou les pauvres, elle affecte toute l'humanité dans le monde. Fang Ruida prône la liberté et la raison et s'oppose à se traiter comme un génie et un dieu. Son célèbre dicton: "Il n'y a pas de surhomme dans le monde. Il n'y a que des artisans qui travailleront toujours dur dans le vaste monde et le travail désintéressé." Son esprit rigoureux et scientifique, ses vastes connaissances et sa sagesse, et son

esprit de critique altruiste C'est en effet un modèle pour le monde et une grande bannière.

Fangruida (FD smith) は、1949 年 5 月 14 日 (1950 年 5 月 13 日) に上海で生まれ、かつて Tangjiang、Wu、Lu Yu、Tang Haijiang、Hao Yan、Xu Gukai、Fangda などと簡単に命名されました。スミス、ポーターなどを使用しました (私はヨーロッパ、アメリカ、日本、ロシア、インド、パキスタン、オーストラリア、アフリカ、アフリカ、およびその他の国で短期間研究および研究を行っていたときに、この名前、エイリアス、仮名 (ライティングなど) を使用しました。) スミスは英語の職人および鍛冶屋でした。姓でもあります。Fang は世界中を旅してきました。幼少期から若年にさまざまな国を旅しました。すべての人類の文明と知恵のすべての成果を学ぶのが得意です。彼は 25 の言語、特にヨーロッパ、アメリカ、ロシア、日本、フランス、イタリア、インド、パキスタン、アフリカ、アラビアを学びました。そして、多くの利益のために働きます。本当に世界市民になることは誇張ではありません。彼は、昼夜を問わず、時には一晩中、学習、勤勉、眠れず、物忘れが得意です。そして、彼は双方向、多方向、多面的に考えることができ、彼の脳の知能は普通の人々を超えており、それはほとんど想像できません。何万年も何千年もの間、世界の人間は誰もいません。そのような才能はありません。誰も彼に不釣り合いではありません。私たちは、ミルクの匂いがしていない幼い子供のように、マスターの存在下で非常に幼稚でかかっています。世界の誰もが、彼が関わっていることの幅、高さ、深さを超えて到達することは困難です。誰もが比較して置き換えることは困難です。フレダは、世界的に有名な物理学者、天文学者、地質学者、生物学者、宇宙学者、天文学者、医学者、発明家、哲学者、思想家、宗教科学者、社会学者、人類学者です。 、エコノミスト、作家、作曲家、ミュージシャン、教育者、言語学者、数理論理学者などは、多くのことを書いています。何千年もの間、地域、人種、宗教、信仰、言語、国、民族、色、金持ち、貧乏人に関係なく、それは世界のすべての人類に影響を及ぼします。ファング・ルイダは自由と理性を主張し、天才であり神であると自分自身を扱うことに反対します。「世界にはスーパーマンはいない。広大な世界と無私の労働で常に一生懸命働く職人しかいない。」彼の厳格で科学的な精神、幅広い知識と知恵、そして無私の批判の精神それは確かに世界のモデルであり、素晴らしいバナーです。

Fangruida, (FD smith), nació en Shanghai el 14 de mayo de 1949 (13 de mayo de 1950), y una vez fue llamada Tang Jiang, Wu, Lu Yu, Tang Haijiang, Hao Yan, Xu Guokai, Fangda, etc., brevemente Usé Smith, Porter, etc. (usé este nombre, alias, seudónimo (escritura, etc.) durante cortos períodos de tiempo cuando estudiaba e investigaba en Europa, América, Japón, Rusia, India, Pakistán, Australia, África, África y otros países). También es el apellido. Fang ha viajado por todo el mundo. Viajó a varios países en sus primeros años y juventud. Es bueno aprendiendo todos los logros de la civilización y la sabiduría de toda la humanidad. Ha estudiado 25 idiomas,

especialmente in Europa, América, Rusia, Japón, Francia, Italia, India, Pakistán, África y Arabia. Y trabajar para beneficiarse mucho. No es una exageración convertirse en un verdadero ciudadano del mundo, de hecho. Es bueno aprendiendo, trabajador, insomne y olvidadizo, día y noche, a veces toda la noche. Y puede pensar bidireccionalmente, multidireccionalmente, de manera múltiple, su inteligencia cerebral está más allá de la gente común, y es casi inimaginable. Nadie en el mundo, la humanidad del mundo durante decenas de miles de años, miles de años, no existe tal talento. Nadie es desproporcionado con él. Somos muy infantiles y ridículos en presencia del maestro, como un niño pequeño que no ha oído a leche. Es difícil para cualquier persona en el mundo alcanzar y superar la amplitud, altura y profundidad de lo que está involucrado. Es difícil para cualquiera comparar y reemplazar. Fréda es un físico, astrónomo, geólogo, biólogo, cosmólogo, astrónomo, científico médico, inventor, filósofo, pensador, científico religioso, sociólogo, antropólogo de renombre mundial. , Economistas, escritores, compositores, músicos, educadores, lingüistas, lógicos matemáticos, etc., escriben mucho, el ruidismo del colmillo como su representante, afectando a miles de personas en todo el mundo durante miles de años o incluso miles. Durante miles de años, independientemente de la región, independientemente de la raza, religión, creencias, idioma, país, origen étnico, color de piel, rico o pobre, afecta a toda la humanidad en el mundo. Fang Ruida aboga por la libertad y la razón, y se opone a tratarse a sí mismo como un genio y un dios. Su famoso dicho: "No hay un superhombre en el mundo. Solo hay artesanos que siempre trabajarán duro en el vasto mundo y el trabajo desinteresado". Su espíritu riguroso y científico, su amplio conocimiento y sabiduría, y su espíritu desinteresado de crítica. De hecho, es un modelo para el mundo y un gran estandarte.

Fangruida, (fabbro FD), nacque a Shanghai il 14 maggio 1949 (13 maggio 1950) e una volta fu chiamato Tangjiang, Wu, Lu Yu, Tang Haijiang, Hao Yan, Xu Guokai, Fangda, ecc., Per un breve periodo Usato Smith, Porter, ecc. (Ho usato questo nome, alias, pseudonimo (scrittura, ecc.) Per brevi periodi di tempo mentre studiavo e ricercavo in Europa, America, Giappone, Russia, India, Pakistan, Australia, Africa, Africa e altri paesi.) È anche il cognome. Fang ha viaggiato in tutto il mondo, ha viaggiato in vari paesi nei suoi primi anni e giovinezza, è bravo a imparare tutti i risultati della civiltà e della saggezza di tutta l'umanità. Ha studiato 25 lingue, in particolare in Europa, America, Russia, Giappone, Francia, Italia, India, Pakistan, Africa e Arabia E lavorare per beneficiare molto. Non è davvero un'esagerazione diventare veramente un cittadino mondiale, anzi. È bravo a imparare, a lavorare sodo, insonne e smemorato, giorno e notte, a volte per tutta la notte. E può pensare in modo bidirezionale, multidirezionale, multidirezionale, la sua intelligenza del cervello è al di là della gente comune, ed è quasi inimmaginabile. Nessuno al mondo, l'umanità del mondo per decine di migliaia di anni, migliaia di anni, non esiste tale talento. Nessuno è sproporzionato per lui. Siamo molto infantili e ridicoli alla presenza del padrone, proprio come un bambino che non ha odore di latte. È difficile per chiunque nel mondo raggiungere e superare l'ampiezza, l'altezza e la profondità di ciò in cui è coinvolto. È difficile per chiunque confrontare e sostituire. Fréda è un fisico di fama mondiale, astronomo, geologo, biologo, cosmologo, astronomo, scienziato medico, inventore, filosofo, pensatore, scienziato religioso, sociologo, antropologo , Economisti, scrittori, compositori, musicisti, educatori, linguisti, logici matematici, ecc., Scrive molto, il Ruidismo Fang come suo rappresentante, che colpisce migliaia di persone in tutto il mondo per migliaia di anni o addirittura migliaia Per migliaia di anni, indipendentemente dalla regione, indipendentemente da razza, religione, credo, lingua, paese, etnia, colore, ricco o povero, colpisce tutta l'umanità nel mondo. Fang Ruida sostiene la libertà e

la ragione e si oppone a trattarsi come un genio e un dio. Il suo famoso detto: "Non esiste un superuomo al mondo. Ci sono solo artigiani che lavoreranno sempre duramente nel vasto mondo e nel lavoro disinteressato". Il suo spirito rigoroso e scientifico, ampia conoscenza e saggezza e spirito altruistico di critica. È davvero un modello per il mondo e un grande striscione.

Fang Ruida - world-famous scientist, philosopher, thinker, writer, sociologist, astronomer, religious scientist, poet, inventor. Fang Ruida was born in Shanghai in 1950. He used the names Fangda, Yu, Yu, Lu

Yu, Fang Ruida, Tang Haijiang, Xu Guokai, Gu Linyi (alias, pseudonym, etc.). In the early years of studying and researching lectures in Europe, the United States, Russia, and other countries, he used English pseudonyms, such as the pen names of "Smith" and "FD Smith," and he mainly wrote articles under pseudonyms. Do not use this pen name. Traditionally, he mostly uses other pen names. Fangda and Fang Ruida are the most used ones and they are still using it. Most people in the world use Fang Ruida as their name. Most of the works written by Fang Rui Da are named after this, and there are few "Smith" signatures among them. Many people also rarely know that his English pen name is "Smith." Fang Ruida used this name occasionally in social studies, research, or commercial work in Europe, the United States, Russia, Japan, Britain, France, Germany, Australia, and other countries, mainly socializing or writing. He has many colleagues and friends all over the world, including Europe, Asia, Africa, Latin America, Australia, and others. His English name is just a kind of hobby or whim. Because, writing essays and writing articles, scientific exchanges, and academic exchanges often use English as a language. Therefore, he used Smith's pseudonym. This is a pseudonym, not an alias, nothing more. However, some people were very impressed with him, so he often called him "F.D Smith" or "Smith." Smith, English means artisans.

Stream of Consciousness, Advanced Neurophysics, Advanced Neurochemistry (Biochemistry, Advanced Neurophysiology, Advanced Neuroscience Networking), Meeting Point. Fang Ruida's research and discovery of the brain's advanced nervous system and consciousness structure.

Fang Ruida's three-dimensional philosophical, neo-liberal rational structuralism is the greatest philosophical revolution in the history of philosophy and the development of

human society, the ideological revolution, the cultural revolution, and the conceptual revolution. Fang Ruida is the first and most rigorous and realistic natural scientist. Secondly, it is the most extensive and rigorous philosophical leader and master of thought. From a wide range of natural sciences to a wide range of more complex social sciences, covering science and technology, cosmic particles, Religion, culture, politics, economy, military, society, ideology, philosophy, etc., all give clear and rigorous elaboration and judgment, summarize and absorb the essence of all human beings and nations, learn from others, analyze and study criticism, and establish It is a very powerful and extensive system of human cognition and rational structure. Therefore, it has far-reaching significance for the development of all mankind and the whole world, and it has extremely great practical significance and far-reaching historical significance. At the same time, Smith is a very serious scientist inventor, such as space super-high-speed heavy-duty rockets, space tunnels, etc., unselfishly dedicated to the whole world.

Fangruida,(FD smith),1949 年 5 月 14 日（1950 年 5 月 13 日）出生於上海，曾用名唐江，葳蕤，陸宇，唐海江，浩焱，徐國開，Fangda，等，短暫使用過 Smith，波爾特等（在歐美日俄印巴澳瑞非阿拉伯等國學習研究工作講學考察商貿等時短期用過此名，別名，筆名（寫作等）），Smith 英語為工匠，鍛工，也是姓氏。Fang 瑞達足跡遍及全球各地，早年和青年時代遊歷各國，善於學習全人類的一切文明和智慧成果，曾經學習過 25 種語言，特別在歐美俄日德法意加印巴瑞非阿拉伯等國學習和工作，獲益匪淺。從而真正成為一個世界公民，並不為過，確實如此。他善於學習，勤奮學習，廢寢忘食，夜以繼日，有時通宵達旦。而且他可以雙向思維，多向思維，多管齊下，大腦智力超出一般人，簡直難以想像。世界上任何人，世界人類幾萬年幾千年，出現如此這般的天才絕無僅有。任何人和他相比，簡直不成比例。我們在大師面前，猶如乳臭未乾的幼童稚童，顯得十分幼稚和可笑。世界上任何人都難以達到和超越他所涉獵的廣度高度和深度。任何人都難以比擬和替代。方瑞達是世界著名的物理學家，天文學家，地質學家，生物學家，宇宙學家，宇航學家，醫學家，發明家，哲學家，思想家，宗教學家，社會學家，人類學家，經濟學家，文學家，作曲家音樂家，教育家，語言學家，數理邏輯學家等，著述頗多，方瑞達主義為其代表，影響全世界全人類幾千年幾萬年甚至幾千萬年，不分地域，不分種族，不分宗教，不分信仰，不分語言，不分國家，不分民族，不分膚色，不分貧富，影響全世界全人類。方瑞達倡導自由理性，反對把自己當成：天才和神靈。他的名言：“世界上沒有超人。世界上只有永遠辛勤耕耘在廣闊天地的耕夫和

忘我勞動的永不休息的工匠。”他嚴謹求實的科學精神，廣博的學識和智慧力量，無私的批判精神，的確是世界的楷模和偉大的旗幟。

Трехмерный философский, неолиберальный рациональный структурализм Фан Руиды - величайшая философская революция в истории философии и развития человеческого общества, идеологическая революция, культурная революция и концептуальная революция. Фанг Руида - первый и самый строгий и реалистичный естествоиспытатель. Во-вторых, это самый обширный и строгий философский лидер и мастер мысли. От широкого спектра естественных наук до широкого круга более сложных социальных наук, охватывающих науку и технику, космические частицы, Религия, культура, политика, экономика, вооруженные силы, общество, идеология, философия и т. Д. - все они дают четкие и строгие разработки и суждения, обобщают и впитывают сущность всех людей и наций, учатся у других, анализируют и изучают критику и устанавливают Это очень мощная и обширная система человеческого познания и рациональной структуры, поэтому она имеет далеко идущее значение для развития всего человечества и всего мира, имеет чрезвычайно большое практическое значение и далеко идущее историческое значение. В то же время Смит - очень серьезный ученый-изобретатель, такой как космические сверхскоростные сверхмощные ракеты, космические туннели и т. Д., Самоотверженно посвященный всему миру.

--Master of World Philosophy Fangruida World Philosophy Leader Fangruida

Philosopher scientist scientist writer thinker Fangruida

The 100-year history of the future world and 10 major events (Fangruida)

September 15, 2018

1. In the future world, the global population will reach more than 10 billion in the 100 years, and the earth resources will be nearly exhausted. The contradiction between population and resources is becoming increasingly acute. Although science and technology, large-scale high-tech and high intelligence will give people great room for development, and too much population will make the world more crowded. If the population continues to grow, the population of the planet will reach 20-30 billion after centuries. The contradiction between resources and population is more acute and complicated, and it is difficult to cope.

2. Within 100 years of the future world, mankind will begin to enter the moon-Mars and other livable planets, opening a new era of human history, and the world of planets in the planetary era will gradually emerge. It is highly

probable that humans will move to the moon, planets such as Mars, and become a reality.

3. The future world's human social science and technology is highly developed. High technology and high intelligence will lead to major structural changes in society and trigger a series of changes and changes in human society.

4. The future world world will undergo major changes, competition and cooperation will become increasingly complex, the world will be disorderly and orderly changing, and various modalities and structures will be among them.

5. In the 100 years of the future world, wars and various difficult disputes, conflicts will lead to war, and various contradictions in the world will intensify. Politics, economy, military, culture, religion, race, land, resources, population, etc. are all incentives. . Various competitions are more intense.

6. In the next 100 years or thousands of years, there will be no catastrophe of "the end of the earth" or "the end of the world." However, the development of the universe and the solar system will be more active, and the dangers and unforeseen events facing the Earth's human beings will intensify. In a sense, the survival of the earth is not groundless. The misconception that the destruction of the universe by the earth is only a matter of millions of years, and it is actually a kind of rational suicide and suicide. The evolution of the earth, the evolution of the solar system, and the evolution of the Milky Way are just moments. For humans, it seems to be very far away. For the universe, it is not a special case,

very common, normalized, and timed. Despite the rapid development of science and technology, science and technology also have many unpredictability and unpredictability and unknownness. Any subtle changes in the Earth, the solar system, and the Milky Way will directly affect humans and even humanity. This is by no means an alarmist. The so-called super earthquake, super tsunami, and so on, are not to be said. The change of the earth, the change of the solar system, and the change of the structure of the universe are more decisively related to the evolution of human beings. Not only do asteroids hit the Earth, meteorites, interstellar matter metamorphosis, etc., but more importantly, the tremendous changes in the structure of the universe, especially the solar system, directly affect the survival and destruction of human beings on Earth. Moreover, the time span is not tens of millions of years, tens of billions of years, but hundreds of thousands of years and thousands of years.

7. Human beings are not alone in the space of the earth, because he has a huge biological group that is always accompanied, so he is not alone. Outside the Earth, in the solar system, in the Milky Way, in the vast universe, the existence of living organisms and living active substances is not denied; however, living human species with highly evolved thinking are extremely rare or even just sporadic orphans. . It is not a paradox that material species, including all extreme life macromolecules, are prevalent in the universe, but animals such as highly intelligent animals are not regular. Life is an insurmountable natural process of

natural history, no matter the beginning or the end, it does not matter to the universe and nature, even material.

8. New major technological inventions are constantly emerging. Such as high-speed heavy-duty composite nuclear-powered rocket spacecraft, space tunnel, lunar tunnel, Mars tunnel, earth tunnel, highly intelligent biological robot, composite safety nuclear power aircraft, new trait materials, large-scale intelligent machinery manufacturing technology, large-scale Excellent crop cultivation techniques, human high-energy education and training technologies, etc. will support changes and model changes that support the world.

9. World politics, the world economy, world culture, world military, world religion, etc. will have a chain reaction. With the advent of the planetary world of planets, the world's traditional models and traditional structures will also produce a series of changes and changes. The traditional concept of the world, the traditional sense of traditional thinking, also mutated. The philosophical philosophy and philosophical thinking structure of the planetary society far exceeds people's general imagination and understanding.

10. The world is broadened, integrated, combined, coupled, blended, complemented, divided, and gradually deepened.

L'histoire du monde futur centenaire et 10 événements majeurs (Fangruida)

15 septembre 2018

1. Dans le monde à venir, la population mondiale atteindra plus de 10 milliards de personnes d'ici 100 ans et les ressources de la Terre seront presque épuisées. La contradiction entre population et ressources devient de plus en plus aiguë. Bien que la science et la technologie, la haute technologie et l'intelligence à grande échelle laisseront aux gens une grande marge de développement, et trop de population rendra le monde plus peuplé. Si la population continue de croître, la population de la planète atteindra 20-30 milliards d'après des siècles. La contradiction entre les ressources et la population est plus aiguë et compliquée et il est difficile de faire face.

2. Dans 100 ans, l'humanité commencera à pénétrer dans la Lune-Mars et d'autres planètes habitables, ouvrant une nouvelle ère de l'histoire humaine, et le monde des planètes émergera progressivement. Il est hautement probable que les humains se déplaceront sur la Lune, des planètes telles que Mars, et deviendront une réalité.

3. Les sciences sociales et la technologie humaines dans le monde à venir sont très développées: une technologie de pointe et une intelligence élevée provoqueront des changements structurels majeurs dans la société ainsi qu'une série de changements et de transformations dans la société humaine.

4. Le monde futur subira de profonds changements, la concurrence et la coopération deviendront de plus en plus complexes, le monde évoluera de

manière désordonnée et ordonnée, et diverses modalités et structures en feront partie.

5. Au cours des 100 années du monde à venir, les guerres et divers conflits difficiles mèneront à la guerre et les contradictions dans le monde vont s'intensifier: politique, économie, armée, culture, religion, race, territoire, ressources, population, etc. . Diverses compétitions sont plus intenses.

6. Dans les 100 prochaines années ou des milliers d'années, il n'y aura pas de catastrophe de "la fin de la terre" ou "de la fin du monde". Cependant, le développement de l'univers et du système solaire sera plus actif et les dangers et événements imprévus auxquels les êtres humains seront confrontés s'intensifieront. En un sens, la survie de la terre n'est pas sans fondement. L'idée fausse que la destruction de l'univers par la terre n'est qu'une affaire de millions d'années et qu'il s'agit en fait d'une sorte de suicide rationnel et de suicide.

L'évolution de la Terre, du système solaire et de la Voie Lactée ne sont que des moments. Pour l'homme, cela semble très éloigné. Pour l'univers, ce n'est pas un cas particulier, très courant, normalisé et chronométré. En dépit du développement rapide de la science et de la technologie, celles-ci ont également de nombreuses imprévisibilité et imprévisibilité et incertitude. Toute modification subtile de la Terre, du système solaire et de la Voie lactée affectera directement les êtres humains et même l'humanité, ce qui n'est nullement alarmiste. Le soi-disant super tremblement de terre, super tsunami, etc., ne doit pas être dit. Le changement de la Terre, le changement du système solaire

et le changement de la structure de l'univers sont liés de manière plus décisive à l'évolution des êtres humains. Non seulement les astéroïdes frappent la Terre, les météorites, la métamorphose de la matière interstellaire, etc., mais plus important encore, les énormes changements dans la structure de l'univers, en particulier le système solaire, affectent directement la survie et la destruction des êtres humains sur Terre. De plus, la période ne correspond pas à des dizaines de millions d'années, mais à des centaines de milliers et des milliers d'années.

7. Les êtres humains ne sont pas seuls dans l'espace terrestre, car ils possèdent un groupe biologique énorme toujours accompagné, de sorte qu'ils ne sont pas seuls. En dehors de la Terre, dans le système solaire, dans la Voie lactée, dans le vaste univers, l'existence d'organismes vivants et de substances actives vivantes n'est pas niée, mais les espèces humaines vivantes à la pensée très évoluée sont des orphelins extrêmement rares ou même simplement sporadiques. . Il n'est pas paradoxal que les espèces matérielles, y compris toutes les macromolécules de vie extrême, soient répandues dans l'univers, mais que des animaux tels que les animaux très intelligents ne sont pas réguliers. La vie est un processus naturel insurmontable de l'histoire naturelle, peu importe le début ou la fin, peu importe l'univers et la nature, même la moindre chose.

8. De nouvelles inventions technologiques majeures apparaissent constamment. Tels que les engins spatiaux de fusée à propulsion nucléaire à haute vitesse, tunnel spatial, tunnel lunaire, tunnel de Mars, tunnel terrestre, robot biologique extrêmement intelligent, avion à énergie nucléaire de sécurité composite,

nouveaux matériaux de trait, technologie de fabrication de machines intelligentes à grande échelle, à grande échelle D'excellentes techniques culturelles, les technologies d'éducation et de formation à haute énergie humaine, etc. soutiendront les changements et modéliseront les changements qui soutiennent le monde.

9. La politique mondiale, l'économie mondiale, la culture mondiale, l'armée mondiale, la religion mondiale, etc. auront une réaction en chaîne. Avec l'avènement du monde planétaire des planètes, les modèles et les structures traditionnels du monde produiront également une série de changements et de changements. Le concept traditionnel du monde, le sens traditionnel de la pensée traditionnelle, ont également muté. La philosophie philosophique et la structure de pensée philosophique de la société planétaire dépassent de loin l'imagination et la compréhension générales des gens.

10. Le monde est élargi, intégré, combiné, couplé, fondu, complété, divisé et approfondi progressivement.

100-летняя история будущего мира и 10 крупных событий (Фангрuida)

15 сентября 2018 г.

1. В будущем мире население планеты достигнет более 10 миллиардов за 100 лет, а земные ресурсы будут почти исчерпаны. Противоречие между населением и ресурсами становится все более острым. Несмотря на то, что наука и технология, масштабные высокотехнологичные технологии и высокий интеллект предоставят людям большие возможности для развития, а слишком большое население сделает мир более тесным. Если население продолжит расти, население планеты через столетия достигнет 20-30 миллиардов. Противоречие между ресурсами и населением является более острым и сложным, и с ним трудно справиться.

2. В течение 100 лет будущего мира человечество начнет входить на Луну-Мартс и другие пригодные для жизни планеты, открывая новую эру человеческой истории, и мир планет в планетарной эре будет постепенно возникать. Весьма вероятно, что люди переместятся на Луну, планеты, такие как Марс, и станут реальностью.

3. Социальная наука и технологии будущего человека высоко развиты: высокие технологии и высокий интеллект вызовут серьезные структурные изменения в обществе и вызовут серию изменений и изменений в человеческом обществе.

4. Будущий мир претерпит серьезные изменения, конкуренция и сотрудничество будут становиться все более сложными, мир будет

беспорядочным и упорядоченным, и среди них будут различные формы и структуры.

5. В течение 100 лет будущего мира войны и различные сложные споры приводят к войнам, и в мире усиливаются различные противоречия:

политика, экономика, военные, культура, религия, раса, земля, ресурсы, население и т. д. Являются стимулами. , Различные соревнования являются более интенсивными.

6. В следующие 100 или тысячи лет не будет катастрофы «конца земли» или «конца света». Однако развитие Вселенной и Солнечной системы

будет более активным, а опасности и непредвиденные события, с которыми сталкиваются люди Земли, будут усиливаться. В некотором

смысле, выживание земли не является беспочвенным. Неправильное представление о том, что разрушение Вселенной Землей – это дело

миллионов лет, и на самом деле это своего рода рациональное

самоубийство и самоубийство. Эволюция Земли, эволюция Солнечной

системы и эволюция Млечного Пути – всего лишь моменты. Для людей это, кажется, очень далеко. Для вселенной это не особый случай, очень

распространенный, нормализованный и рассчитанный по времени.

Несмотря на быстрое развитие науки и техники, у науки и техники также много непредсказуемости, непредсказуемости и неизвестности. Любые

тонкие изменения на Земле, в Солнечной системе и Млечном Пути будут напрямую влиять на людей и даже человечество. Это ни в коем случае не

паникер. О так называемом супер землетрясении, супер цунами и т. Д. Говорить не приходится. Изменение Земли, изменение Солнечной системы и изменение структуры Вселенной более решительно связаны с эволюцией людей. Мало того, что астероиды поражают Землю, метеориты, метаморфозы межзвездной материи и т. Д., Но, что более важно, огромные изменения в структуре Вселенной, особенно в Солнечной системе, напрямую влияют на выживание и разрушение людей на Земле. Более того, промежуток времени составляет не десятки миллионов лет, десятки миллиардов лет, а сотни тысяч лет и тысячи лет.

7. Человеческие существа не одиноки в космическом пространстве, потому что у него огромная биологическая группа, которая всегда сопровождается, поэтому он не одинок. За пределами Земли, в Солнечной системе, в Млечном Пути, в огромной вселенной существование живых организмов и живых активных веществ не отрицается, однако живые человеческие существа с высокоразвитым мышлением являются чрезвычайно редкими или даже спорадическими сиротами. , Не парадоксально, что материальные виды, включая все экстремальные макромолекулы жизни, распространены во вселенной, но животные, такие как очень умные животные, не являются регулярными. Жизнь – непреодолимый естественный процесс естественной истории, независимо от начала или конца, она не имеет значения для вселенной и природы, даже материальных.

8. Новые крупные технологические изобретения постоянно появляются.

Такие как высокоскоростной сверхмощный композитный ракетный космический корабль с ядерной установкой, космический туннель, лунный туннель, туннель Марс, земляной туннель, высокоинтеллектуальный биологический робот, композитный безопасный ядерный энергетический летательный аппарат, новые материалы с характеристиками, технология производства крупномасштабных интеллектуальных машин, крупномасштабные Отличные методы выращивания сельскохозяйственных культур, высокоэнергетические технологии обучения и подготовки человека и т. Д. Будут поддерживать изменения и моделировать изменения, которые поддерживают мир.

9. Мировая политика, мировая экономика, мировая культура, мировая армия, мировая религия и т. Д. Будут иметь цепную реакцию. С появлением планетарного мира планет, традиционные модели мира и традиционные структуры также произведут ряд изменений и изменений. Традиционная концепция мира, традиционное чувство традиционного мышления также мутировали. Философская философия и структура философского мышления планетарного общества намного превосходят общее воображение и понимание людей.

10. Мир расширяется, интегрируется, объединяется, соединяется, смешивается, дополняется, разделяется и постепенно углубляется.

Los 100 años de historia del mundo futuro y 10 eventos importantes

(Fangruida)

15 de septiembre de 2018

1. En el mundo futuro, la población mundial alcanzará más de 10 mil millones en los 100 años, y los recursos de la Tierra estarán casi agotados. La contradicción entre población y recursos es cada vez más aguda. Si bien la ciencia y la tecnología, la alta tecnología a gran escala y la alta inteligencia darán a las personas un gran espacio para el desarrollo, y demasiada población hará que el mundo esté más abarrotado. Si la población continúa creciendo, la población del planeta alcanzará los 20-30 mil millones después de siglos. La contradicción entre recursos y población es más aguda y complicada, y es difícil de manejar.

2. Dentro de los 100 años del mundo futuro, la humanidad comenzará a entrar en la Luna-Marte y otros planetas habitables, abriendo una nueva era de la historia humana, y el mundo de los planetas en la era planetaria emergerá gradualmente. Es muy probable que los humanos se muevan a la luna, planetas como Marte, y se conviertan en una realidad.

3. La ciencia y tecnología humanas humanas del mundo futuro están altamente desarrolladas. La alta tecnología y la alta inteligencia desencadenarán grandes cambios estructurales en la sociedad y desencadenarán una serie de cambios y cambios en la sociedad humana.

4. El mundo mundial futuro sufrirá cambios importantes, la competencia y la cooperación se volverán cada vez más complejas, el mundo cambiará de manera desordenada y ordenada, y varias modalidades y estructuras estarán entre ellas.

5. En los 100 años del mundo futuro, guerras y varias disputas difíciles, los conflictos conducirán a la guerra y se intensificarán varias contradicciones en el mundo. Todos los incentivos son política, economía, militar, cultura, religión, raza, tierra, recursos, población, etc. . Varias competiciones son más intensas.

6. En los próximos 100 años o miles de años, no habrá una catástrofe del "fin de la tierra" o "el fin del mundo". Sin embargo, el desarrollo del universo y el sistema solar será más activo, y los peligros y eventos imprevistos que enfrentan los seres humanos de la Tierra se intensificarán. En cierto sentido, la supervivencia de la tierra no es infundada. La idea errónea de que la destrucción

del universo por la Tierra es solo una cuestión de millones de años, y en realidad es una especie de suicidio racional y suicidio. La evolución de la Tierra, la evolución del sistema solar y la evolución de la Vía Láctea son solo momentos. Para los humanos, parece estar muy lejos. Para el universo, no es un caso especial, muy común, normalizado y cronometrado. A pesar del rápido desarrollo de la ciencia y la tecnología, la ciencia y la tecnología también tienen muchas imprevisibilidad, imprevisibilidad y desconocimiento. Cualquier cambio sutil en la Tierra, el sistema solar y la Vía Láctea afectará directamente a los humanos e incluso a la humanidad. Esto no es de ninguna manera un alarmista. El llamado súper terremoto, el súper tsunami, etc., no se puede decir. El cambio de la tierra, el cambio del sistema solar y el cambio de la estructura del universo están relacionados más decisivamente con la evolución de los seres humanos. Los asteroides no solo golpean la Tierra, los meteoritos, la metamorfosis de la materia interestelar, etc., sino que lo más importante es que los tremendos cambios en la estructura del universo, especialmente el sistema solar, afectan directamente la supervivencia y la destrucción de los seres humanos en la Tierra. Además, el lapso de tiempo no es de decenas de millones de años, decenas de miles de millones de años, sino cientos de miles de años y miles de años.

7. Los seres humanos no están solos en el espacio de la tierra, porque tiene un grupo biológico enorme que siempre está acompañado, por lo que no está solo. Fuera de la Tierra, en el sistema solar, en la Vía Láctea, en el vasto universo, no se niega la existencia de organismos vivos y sustancias activas vivas, sin embargo,

las especies humanas vivas con pensamiento altamente evolucionado son extremadamente raras o incluso huérfanas esporádicas. . No es una paradoja que las especies materiales, incluidas todas las macromoléculas de vida extrema, prevalecen en el universo, pero los animales como los animales altamente inteligentes no son regulares. La vida es un proceso natural insuperable de la historia natural, sin importar el principio o el final, no importa para el universo y la naturaleza, incluso lo material.

8. Nuevos inventos tecnológicos importantes están emergiendo constantemente. Tales como vehículos espaciales de cohetes de propulsión nuclear compuesta de alta velocidad, túnel espacial, túnel lunar, túnel de Marte, túnel de tierra, robot biológico altamente inteligente, avión de energía nuclear de seguridad compuesto, nuevos materiales de rasgo, tecnología de fabricación de maquinaria inteligente a gran escala, tecnología a gran escala Las excelentes técnicas de cultivo de cultivos, la educación humana de alta energía y las tecnologías de capacitación, etc., apoyarán los cambios y los cambios modelo que apoyan al mundo.

9. La política mundial, la economía mundial, la cultura mundial, el ejército mundial, la religión mundial, etc. tendrán una reacción en cadena. Con el advenimiento del mundo planetario de los planetas, los modelos tradicionales y las estructuras tradicionales del mundo también producirán una serie de cambios y modificaciones. El concepto tradicional del mundo, el sentido tradicional del pensamiento tradicional, también mutó. La filosofía filosófica y la

estructura de pensamiento filosófico de la sociedad planetaria excede con mucho la imaginación y la comprensión general de las personas.

10. El mundo se amplía, se integra, se combina, se acopla, se mezcla, se complementa, se divide y se profundiza gradualmente.

Fangruida, ruida-Fang, Smith, F.D Smith, etc.

Alias

Mu Nan, Yi, Yi, Fang Da, Lu Huayu, Xu Guokai, Tang Hai, etc.

place of birth

Shanghai

date of birth

1949.5.13

Fangruida (ruida-Fang, Smith, born on May 13, 1949 in Shanghai, used the names of Munan, Yi, Yi, Fang Da, Lu Huayu, Xu Guokai, Tang Haijiang, etc., pen name Smith, F. DSmith), physicists, philosophers, astronomers, writers, economists, cosmologists, formerly studying at universities at home and abroad, pre-doctoral, visitor, advanced seminars, Australian universities, Cornell University, University of Geneva, University of Technology, National People's Congress, Hunan University, Agricultural College, etc., visiting scholar, worked and researched at Chinese and foreign universities, research institutes, research laboratories, laboratories, Chinese and foreign commercial enterprises, technology companies, etc., or in related countries. Short-term research, lectures, scientific investigations, etc., and other academic, technical exchanges. Has served in various positions. Senior researcher, professor, now consults technical consultants, visiting professors, etc. in Switzerland, Belgium, etc. The research results include the discovery: the circular diverts theorem (in 1985, the results of research in Rome, Paris, Belgium, etc., super-rotational domain, super-rotation theorem): the initial state of spin spinvector in the lathepotential "field" theorem sub-tribe, the differential and integral of the ground state spin, the same short-term scientific research or lectures in the world (1965-1988, Europe, France, the Netherlands, the fill theorem (1976-1986, in Argentina, Japan, Germany, China research results) Jupiter Center Distance Theory (1986-1993-2000, UK, USA, France): a simple model of space and time

shearing (1965-1986, Norway, Sweden, Russia, Canada, and Santiago, etc.):

Seismic wave acupuncture (1982-1997, Australia, former Soviet Union, China):

Large-scale activities (1986-1996, in the United States, South Africa,

Switzerland, Chile, New Zealand): Genes of TE superconducting nerve cells

(1973-1990, In Copenhagen, Stockholm, Bern, etc.), the mechanism of the

spine of cancer, the superconductivity of the neural reflex gene, the earthquake

sanrosoy instrument, etc. The natural orbit of the language and the hybrid

trajectory Europe and the United States 1992-1999, research

neurophysiology, brain research. - The main inventions: medical treatment aid,

earthquake sanrosoy instruments, etc., research papers and inventions, works,

works. He used to be the nominee for many international awards or Candidates.

World Celebrity Biography IBC/ABI World celebrity biography, world famous

scientists, celebrity dictionary, Chinese and foreign celebrity biographies, etc.

The world's major websites.

Most of the biographies of Mr. Smith (F. D Smith) are recorded in April 1950

or May 13th, 1950. According to the latest research materials and memories

of visiting relevant people, it should actually be born in Shanghai on May 13,

1949. The original name is not called Fang Ruida, probably it is HAoYe, Tang

Jiang and so on, Fang Da, Fang Ruida is the name that will be used later,

especially after the adulthood, the alias pen name will gradually increase.

Including the English pen name "Smith", etc., commonly referred to as

"Fangruida-Smith", the English name pen name has been used briefly around

the world, mainly engaged in writing, publishing papers or works, articles and so on. Later, it was also signed by Fang Ruida. Fang Ruida's family should be relatively rich and affluent. It is said to be a famous family, a family or a scholarly family. Some people may also be out of the middle class. Otherwise, he cannot have such genius and achievements. Of course, his life experience is very complicated, and he has contact with him in the middle and upper levels. According to his university friends who are familiar with him, he was born in the famous family of Jiangsu, Zhejiang and Shanghai. He is a celebrity or a high-ranking official, or an overseas Chinese merchant. This is unquestionable. Fang Ruida is a private school, about 5-6 years old, full of talent, wisdom, and has shown amazing talent and memory from an early age. Painting, poetry, mathematical mathematics, toy models, especially beautiful nature, blue sky and white clouds, stars and moon sun, caused his great curiosity and interest. Later, I studied in a private school and then went to a public school. This is probably the beginning of his childish heart. Who knows that this may be a childish play, and the result turned him to an extremely broad world road, the road to the sky. I remember that once he stayed in the fields and wild vegetables (60 years of famine), after he studied, he was lying on the grass and looking at the sky, the clouds, and the countless stars. . . . It was late, and he looked at the sky and gradually felt the beauty of the sky, but there was a hint of fear. . . . Who would have expected, decades later, he dreamed of lingering, the sun, the moon, Mars, Venus, the interstellar world, began to study astronomical

geography, celestial mechanics, astrophysics, satellite spacecraft. Maybe it's an accidental coincidence.

Many people call him: supernatural powers, geniuses. But he resolutely denied that he was only a farmer and a craftsman who worked hard. In fact, he is very clear, diligent in learning, good at learning, forgetting to die, and all night long. Regardless of the primary and secondary schools, regardless of the university, he is working hard to study a variety of courses, while studying and studying books of various subjects, reading a wide range of books in various libraries, in the university city of the world, He left an unforgettable imprint. Originally he was the first to study science and engineering, and then gradually expanded the jump, and turned to other, including philosophy and social sciences, etc., a trigger can not be cleaned up. He not only studies undergraduate majors, but also interdisciplinary and interdisciplinary studies. He has several grades of learning in his youth, which is hard to imagine. His research on the astronomical geography began in the world as early as adolescence, not after adulthood abroad. In foreign countries, research resources and conditions are quite good, which will undoubtedly allow him to fly high wings. Open the bow left and right, multi-pronged, convergence and divergence. From the library to the laboratory, from the study to the society, rigorous, realistic, and explore the infinite mysteries of the world, the willingness to win. The natural science needs a rigorous and solid system. The so-called mathematical and physico-chemical world of agro-industrial and industrial, cultural, historical, and philosophical,

political, and military, as well as religious studies, theology, etc., encyclopedic complex, systematic order. He can go hand in hand, multiple thinking, multiple logics, which is incredible in the average person, and even impossible. Some people say that his IQ is high, his memory is extraordinary, his brain cells are particularly developed, mathematical logic, formal logic, and image logic are complementary and complementary. It is really broken. This is only half right, and more importantly, his diligence and diligence, sleepless nights, little rest, continuous study and work, never waste time. His reading volume, learning and studying more than many people, and, learning a long way, proficient in the whole, can be described as ingenious, water and water. Over time, you can ride it lightly and enjoy it. Mathematical and physico-chemical, heaven and earth, literature and history, and so on. Then I continued to learn and constantly recharge. He studied and studied in various schools in his youth, and also in universities at home and abroad. He visited the world, broadly converged, and finally integrated and diverged. For example, physics and chemistry is the cornerstone of natural science. Advanced mathematics, functional analysis, higher algebra, differential geometry, number theory, partial differential equations, real-time functions, etc., general physics, astrophysics, quantum mechanics, astrophysics, particle physics, high-energy physics, etc., all need to be studied repeatedly. Repeated trials can gradually enter the good times. Fang Ruida has worked and studied at home and abroad. He has served in various positions, professors, chief engineers, principals, deans, directors, chief designers,

laboratory directors, chief experts, chief commanders, general managers, senior presidents, directors, Advisor, Secretary General, Military Instructor, Executive Chairman, Chairman, President, Director, Vice Chairman of the Board, Expedition Captain, Technical Consultant, Visiting Fellow, Visiting Professor, and sometimes more than a dozen positions, he later dismissed these positions. Concentrating on research and teaching writings, he believes that too many part-time jobs are not conducive to professional research and innovation. This is his development from the general field to a higher and deeper field, in order to truly become a mentor to everyone and the world leader and humanity. In fact, he is known throughout the world, writing and waiting for himself, breaking through the traditional fence and moving towards the radiance of freedom and rationality. Fang Ruidism, Fang Ruida Philosophy, Fang Ruida Economics, Fang Ruida Science Discovery Invention, Fang Ruida Science Law Theorem, Fang Ruida Rocket, Fang Ruida Works, Fang Ruida Religious Studies, Fang Ruida Universe Physics, Fang Ruida Quotes, etc., in Human History and World History All of them have established historical monuments that are difficult to surpass. Learn from the people, learn from the masters, learn from the famous teachers, learn from the society, learn from practice, and create learning from the wisdom and civilization of all mankind around the world. This is the secret of his success. He is the world's truly encyclopedia, the world's leader, the mentor of all mankind, hard to compare, difficult to replace and replace. Even so, he said: Anyone in front of the natural universe is nothing more than

a negligible particle, including mortal folks, including celebrity giants and great people. There are no superhumans and saints in the world, only those who have worked hard forever forever. His influence and existence are not tens of thousands of years and thousands of years, but millions of years, tens of millions of years, not only in the earth, but also in the vast space of the moon, Mars, Jupiter, and so on. Endlessly. He has a wide network of friends and friends in the world, probably thousands of people, all kinds of languages, various nationalities, various cultures, various ethnic groups, Europe, America, Russia, India, India, Germany, Latin America, Latin America, Australia , Africa, Bethlehem, etc., Christian Islam Buddhism, etc., he has contacted and studied the true meaning of it. He belongs to all mankind and the whole world. This is the reason why he truly became the world leader and the mentor of mankind. A truly universal figure, a citizen of the world.

Fang Ruida, also known as Fang Ruida, Fang Ruida, Smith, Smith-Fangruida, Fangruida, ruida-Fang, male, Han nationality, was born in Shanghai on May 13, 191949. He used the name Munan, HAOYE, Weirui, Fangda, deer. Huayu, Xu

Guokai, Tang Haijiang, etc., physicist, philosopher, astronomer, writer, economist, cosmologist, studied at a university at home and abroad, doctoral preparatory, visitor, advanced seminar, Australian University, Kangnai University, Moscow University, University of Geneva, University of Technology, National People's Congress, Hunan University, Agricultural College, etc., visiting scholar, worked at Chinese and foreign universities, research institutes, research laboratories, laboratories, Chinese and foreign commercial enterprises, technology companies, etc. Research, has served in various positions. Senior researcher, professor, now Switzerland, Belgium, and other consulting technical consultants, technical experts, commercial directors, visiting professors, design experts, etc.

Most of the biographies of Mr. Smith (F. D Smith) are recorded in April 1950 or May 13th, 1950. According to the latest research materials and memories of visiting relevant people, it should actually be born in Shanghai on May 13, 1949. The original name is not called Fang Ruida, probably it is HAOYe, Tang Jiang and so on, Fang Da, Fang Ruida is the name that will be used later, especially after the adulthood, the alias pen name will gradually increase.

Including the English pen name "Smith", etc., commonly referred to as "Fangruida-Smith", the English name pen name has been used briefly around the world, mainly engaged in writing, publishing papers or works, articles and so on. Later, it was also signed by Fang Ruida.

Fang Ruida is a private school, about 5-6 years old, full of talent, wisdom, and has shown amazing talent and memory from an early age. Painting, poetry, mathematical mathematics, toy models, especially beautiful nature, blue sky and white clouds, stars and moon sun, caused his great curiosity and interest. This is probably the beginning of his childish heart. Who knows that this may be a childish play, and the result turned him to an extremely broad world road, the

road to the sky. I remember that once he stayed in the fields and wild vegetables (60 years of famine), after he studied, he was lying on the grass and looking at the sky, the clouds, and the countless stars. . . . It was late, and he looked at the sky and gradually felt the beauty of the sky, but there was a hint of fear. . . . Who would have expected, decades later, he dreamed of lingering, the sun, the moon, Mars, Venus, the interstellar world, began to study astronomical geography, celestial mechanics, astrophysics, satellite spacecraft. Maybe it's an accidental coincidence.

Many people call him: supernatural powers, geniuses. But he resolutely denied that he was only a farmer and a craftsman who worked hard. In fact, he is very clear, diligent in learning, good at learning, forgetting to die, and all night long. Regardless of the primary and secondary schools, regardless of the university, he is working hard to study a variety of courses, while studying and studying books of various subjects, reading a wide range of books in various libraries, in the university city of the world, He left an unforgettable imprint. He not only studies undergraduate majors, but also interdisciplinary and interdisciplinary studies. He has several grades of learning in his youth, which is hard to imagine. His research on the astronomical geography began in the world as early as adolescence, not after adulthood abroad. In foreign countries, research resources and conditions are quite good, which will undoubtedly allow him to fly high wings. Open the bow left and right, multi-pronged, convergence and divergence.

From the library to the laboratory, from the study to the society, rigorous, realistic, and explore the infinite mysteries of the world, the willingness to win.

Fang Ruida has a famous saying: "The value of life is not what the world and human beings can give you, but first of all what you can offer to humans and the world." This is his most realistic psychological portrayal.

Some people may ask him what he will say after his life. He smiled heartily and calmly replied: "In the sea, on the plateau, in the mountains, perhaps on the stars, the moon, Mars, I am very satisfied." Perhaps this is his will or wish.

Because he is very advocating nature and the universe. Yes, his footprints are all over the world. His research is spread all over the world. His voice spreads all over the world, and his friends and companions are all over the world. After tens of thousands of years, people will remember it.

Fang Ruida, male, Han nationality, was born in Shanghai in May 1949. (Other biographies are considered to be 1950 in April, actually repeating the unfounded assertion that it should be May 13, 1949, other inaccuracies, this Will win. Fang Ruida (born 1949, Shanghai, May 13th, physicist, astronomer, cosmologist, geologist, biologist, aerospace scientist, physician, philosopher, thinker, religious scientist, Anthropologist, sociologist, composer, painter, writer, economist, inventor, educator. Fang Ruida, also known as Fang Rui,

Fang Rui, Fang Ruida, Rui Dafang, male, Han nationality, was born in Shanghai 1949 – Originally known as Mu Nan, Ye Hao, Gorgeous, Fang Da, Yu Lu, Xu Kai Tang Seascape, etc., physicist, philosopher, astronomer, writer, economist, cosmologist, studying at a foreign university, doctoral preparatory class, visitor, advanced seminars, Australian universities, Cornell University, Moscow State University, University of Geneva, Polytechnic University, Renmin University, Hunan University, Agricultural College, University of Technology, etc., once had Chinese and foreign universities He has worked in various fields including borrowing, reading, preparatory, correspondence, research institutes, laboratories, laboratories, foreign commercial enterprises, technology companies, etc. Senior researcher, professor, now Switzerland, Belgium, etc. Consulting and technical consultants, technical experts, business directors, professors, design experts. Includes discovery studies: Central Park Transfer Theorem (1985, in Rome, Paris, Belgium, super-spin vector field, super-spin theorem): in orbit Field "Theorem Age Tribal Rotation Vector Initial Steering State, Ground State Spin Differential and Integral Calculus, (1965-1988, Europe, France, Netherlands, Filling Field Theorem (1976-1986 in Argentina, Japan, Germany, China); From the Jupiter Theory Center (1986-1993-2000, UK, USA, France): Space and time simple shear model (1965-1986, Norway, Sweden, Russia, Canada and the Mediterranean, etc.): Hole seismic wavefield (1982-1997) , Australia, China): Large-scale cross-border activities (1986-1996, in the United States, South Africa, Switzerland, Chile, New

Zealand): Due to the rotation mechanism of derived TE superconducting neurons (from 1973 to 1990, in Copenhagen, Stockholm, Bern, etc.), the cancer superconducting effect of the neural reflex arc gene, the seismic sanrosoy instrument and other natural and mixed orbital tr injection language (Europe 1992-1999 abroad, research neurophysiology, brain research. - The main inventions: medical treatments assisted earthquake sanrosoy instruments, research papers and inventions. Scientific discoveries and technological inventions and other works, and other works. Biography of Chinese and foreign celebrities, Cambridge biography , world scientists, the world famous encyclopedia, IBC / Abl and other celebrity dictionaries and the world's major website collection. The world's major websites, international websites have relevant information. Fang Ruida has used pen names such as "smith" for a short time, but later generations often " FD Smith" or Smith-Fangruida" is a mixed name. Why does he like this English pen name? He is studying life and research work in Europe and the United States, etc., and then he upholds freedom and rationality, opposes high above, self-righteousness, insists on freedom and equality, and loves rationality. Other people's myths themselves beautify themselves. Smith, English is a craftsman, the meaning of the blacksmith, is very popular in English-speaking countries, Fang Ruida is very much appreciated. He is ruthlessly criticized for any extremes and extremes. The sorcerer, the sacred spirit, the sacred master, the sage master, the scientific leader. Human mentor,

mentor and friend. God and Zeus, freedom and reason, the god of the sun, the universe is vast, profound and profound.

God (YHWH, God, God) is a god of Judaism, Christianity, Islam, and creation of the universe. Often regarded as the supreme belief of religious believers, in Christianity, God is the eternal being, creating and governing the world. Theism says that the Chinese call it God. (Generally) God is the support and creator of the universe. Deism says that God is the creator of the universe. Pantheism believes that God is the universe itself. Christianity believes that God is detached. Both the god in English and the Gutt in German are derived from the Gothic gut in the Indo-European language before the prevalence of Christianity. The original meaning refers to the "Prayer" or "The Sacrifice", and the root is "casting" refers to casting. The image of the god. Greece is Zeus as the Lord of the Gods, and Rome is the Lord of the Gods; the ancient Indian gods are very complex and often change their status. The original Indian god is Teyous, it is associated with Greek Zeus and Rome. 裴 bit is the same language, but the most powerful in the Vedic gods is the Po Lou (the judicial god), the big god in the air is Indra (Raytheon), the great god in the realm is Ajani (Vulcan), Hell God is King of Jerusalem (but it is in heaven),

方瑞達

方瑞達，瑞達芳，史密斯，史密斯等。

別名

木南，昊燁，葳蕤，方達，鹿化宇，徐國開，唐海等

出生地

上海

出生日期

1949 年 5 月 13 日

方瑞達（fangruida，瑞達方，史密斯，1949 年 5 月 13 日，出生於上海，曾用名木南，

昊燁，葳蕤，方達，鹿化宇，徐國開，唐海江等，筆名史密斯，F. DSmith）等，物理學

家，哲學家，天文學家，作家，經濟學家，宇宙學家，曾經在國內外大學學習，博士預科，访问学者，高級研修班，澳大利亞大學，康奈爾大學，

日內瓦大學，工業大學，人大，湖南大學，農業學院等，vistingscholar，曾經在中外大學，

科研院所，研究室，實驗室，中外商業企業公司，技術公司等處的工作和研究，或在相關國家短期從事研究，講學，科學考察，等兼及其他，學術，技術交流等任過各種職務高級研究員，教授，現在瑞士，比利時，等諮詢技術顧問，客座教授等研究成果包括發現。：園環

divects 定理（在 1985 年，在羅馬，巴黎，比利時等研究的成果，超旋矢域，超旋定理）：

在 lathepotential“場”定理次部落的自旋 spinvector 初始狀態的轉向，基態自旋的微分和

積分，下同在世界各國短期科研或講學等（1965 年至 1988 年，歐洲，法國，荷蘭，填

域定理（1976-1986 年，在阿根廷，日本，德國，中國研究成果）；木星中心距離理論

（1986-1993-2000，英國，美國，法國）：空間和時間剪簡單的模型（1965 年至

1986 年，挪威，瑞典，俄羅斯，加拿大，andsantiago，等）：地震波穴場（1982-1997，

澳大利亞，前蘇聯，中國）：大跨域的活動（1986 年至 1996 年年，在美國，南非，瑞

士，智利，新西蘭）：TE 超導電性的神經細胞的基因（1973 年至 1990 年年，在哥本哈根，斯德哥爾摩，伯爾尼，等），癌瘤的旋化衍化機理，神經反射弧基因的超導作用，地震 sanrosoy 儀器，等等。語言的自然軌道和雜化軌跡（在國外歐美 1992 年至 1999 年，研究神經生理學，腦研究.-的主要發明：醫藥 treator 援助的，地震 sanrosoy 儀器等，研究論文和發明，著作，作品他曾經是多項國際獎重要獎項的被提名人或候選人。世界名人傳記 IBC / ABI 世界名人傳記，世界著名科學家，名人大辭典，中外名人傳記等收編。世界主要網站等。

方瑞達（Smith, F.D Smith）的生平傳記傳記中，大部分記載為 1950 年 4 月或 1950 年 5 月 13 日。根據最新研究資料和走訪相關知情人士的回憶，實際上應當為 1949 年 5 月 13 日在上海出生。原名也不叫方瑞達，大概是昊燁，唐江之類，方大，方瑞達是以後才使用的名字，特別是成年以後，別名筆名別號就逐漸多了起來。包括英文筆名“史密斯”等，習慣上統稱“Fangruida 史密斯”，英文名字筆名曾在世界各地短暫使用過，主要是從事寫作，發表論文或作品，文章等使用過。以後也以方瑞達署名。方瑞達家境應當是比較殷實富裕的，據說是名門望族，世家或書香門第，也有人考證可能出於中上流社會，否則，他不可能有這樣的天才和成就。當然，他的人生經歷十分複雜，中上層以及底層他都有所接觸。根據熟識他的大學朋友揭秘，他出生於江浙上海一帶的名門世家，屬於社會名流或是高官富商，或是海外僑商，絕非凡人之輩。這是不容置疑的。

方瑞達幾歲就入私塾讀書，大概在 5-6 歲，天資充盈，智慧過人，從小就展示了驚人的天賦和記憶力。繪畫，詩歌，數理數學，玩具模型，特別是美麗的大自然，藍天白雲，星星月亮太陽，引起了極大的好奇和興趣。以後又在私立學校學習，而後又到公立學校學習。這大概就是童心萌動的開始吧。誰知這可能是幼稚的玩耍而已，結果竟然使他走向了一天極其廣闊的世界大道，穹蒼之道。記得，有一次他呆在田野地撿野菜（60 年大飢荒時年），他讀書之後，靜靜躺在草地上遠望著天空的太陽，雲朵，還有數不清的星星.....天色晚了，他望著天空逐漸感到天際的美麗廣大，但又有一絲恐懼.....誰料到，幾十年之後，他夢迴縈繞，太陽，月亮，火星，金星，星際世界，開始研究天文地理，天體力學，天體物理，衛星飛船。也許是一種偶然巧合吧。

不少人稱他為：。神通，天才但他堅決否認，稱自己只不過是一個不輟勞作的耕夫和工匠而已事實上，他十分清晰，勤學好問，善於學習，廢寢忘死，通宵達旦。不論中小學，不論大學，他都是下苦功夫攻讀各類課程，同時學習研讀各科類專業的書籍，在各種各樣的圖書館飽覽群書，在世界各地的圖書館大學城，他都留下難忘的印跡。本來他是首先學習理工科的，而後逐步擴展跳躍，轉向其他，包括哲學社會科學等等，一觸發而不可收拾。他不僅學本科

專業，而且跨學科跨專業研讀，青少年時代就數次跳級學習，一般人難以想像。他對天文地理宇宙的研究，世界上早在青少年時代就開始了，而並不是在國外成年之後。在國外，研究資源和條件相當好，這就無疑讓他展開翅膀高高飛翔。左右開弓，多管齊下，收斂和發散齊備。從圖書館到實驗室，書齋到社會，嚴謹，求實，探尋世界的無窮奧秘，志在必得。自然科學需要嚴謹紮實系統，所謂數理化天地生農醫工商，文史哲經教政法軍體，還有宗教學，神學等，百科複雜，系統有序。他都可以齊頭並進，多項思維，多項邏輯，這在一般人簡直不可思議，甚至根本不可能企及。有人說，他的智商高，記憶力非凡，大腦細胞特別發達，數理邏輯，形式邏輯，形象邏輯集合而互補，真是一語破的。這只說對了一半，更重要的是他的勤勉勤奮，廢寢忘食，極少休息，連續學習和工作，從不浪費時間。他的讀書量，學習研讀超過了許多人，而且，學有所長，精通貫通，舉一反三，可謂爐火純青，水到渠成。久而久之，可以駕輕就熟，任意馳騁。數理化，天地生，文史哲，等等，均是如此。再就是不斷學習，不斷充電，他青少年時代曾在各種學校學習讀，在國內外大學也是如此，博覽世界，廣泛收斂，最終集成發散。比如，數理化，是自然科學的基石。高等數學，泛函分析，高等代數，微分幾何，數論，偏微分方程，實變函數，等等，普通物理，天體物理，量子力學，天體化學，粒子物理，高能物理等等，都需要反復學習反復試驗才能逐步進入佳境。方瑞達曾經在國內外工作學習，曾經擔任過各種職務，教授，總工，校長，院長，總監，總設計師，實驗室主任，首席專家，總指揮，總經理，高級總裁，廠長，顧問，秘書長，軍事教官，執行主席，主席，會長，理事，董事會副主席，探險隊長，技術顧問，客座研究員，客座教授，有時身兼十幾個職務，後來他都辭退了這些職務，集中精力從事科研教學著述等，他認為，兼職掛職太多，不利於專業研究和創新。這就是他從一般的領域向更高更深的領域發展擴展，才能真正成為大家和世界領袖和人類的導師。實際上，他享譽全世界，著述等身，突破了傳統的籬笆，邁向自由理性的光輝頂峰。方瑞達主義，方瑞達哲學，方瑞達經濟學，方瑞達科學發現發明，方瑞達科學定律定理，方瑞達火箭，方瑞達作品，方瑞達宗教學研究，方瑞達宇宙物理學，方瑞達語錄名言，等等，在人類歷史上和世界歷史上都建立起難以超越的歷史豐碑。向前人學習，向大師學習，向名師學習，向社會學習，向實踐學習，向全人類全世界的智慧和文明創造學習，永不滿足。這就是他成功的秘訣。他是世界名符其實的百科全書，世界的領袖，全人類的導師，任何人都難以比擬，難以替代和取代的即使這樣，他也說：任何人在自然宇宙面前都不過是一顆微不足道的微粒而已，包括凡人俗子，也包括名人巨人偉人之類。世界上沒有超人，聖人，只有永遠辛勤勞作永遠進擊的耕夫和工匠。他的影響和存在，不是幾百年幾千年幾萬年，而是幾百萬年幾千萬年，不僅在地球，而且會在月球，火星，木星衛星等廣闊的宇宙空間熠熠生輝，永久不息。他在世界各地有廣泛的人脈和知音朋友網友，大概有成千上萬，各種語言，各種國籍，各種文化，各種族群，歐美俄日印巴德法西，阿拉伯，拉美，澳洲，非洲，伯利恆等，基督教伊斯蘭教佛教等，他都接觸和研究其中的真諦。他是屬於全人類全世界的，這才是他真正成為世界領袖，人類的導師的原因，一個名符其實的世界性人物，世界公民。

方瑞達，又稱方銳達，方睿達，史密斯，史密斯-Fangruida, Fangruida, 瑞達方，男，

漢族，191949年5月13日出生於上海，曾用名木南，昊燁，葳蕤，方達，鹿化宇，

方瑞達 (Smith, F. D Smith) 的生平傳記傳略中，大部分記載為 1950 年 4 月或 1950 年 5 月 13 日。根據最新研究資料和走訪相關知情人士的回憶，實際上應當為 1949 年 5 月 13 日在上海出生。原名也不叫方瑞達，大概是昊燁，唐江之類，方大，方瑞達是以後才使用的名字，特別是成年以後，別名筆名別號就逐漸多了起來。包括英文筆名“Smith”等，習慣上統稱“Fangruida-Smith”，英文名字筆名曾在世界各地短暫使用過，主要是從事寫作，發表論文或作品，文章等使用過。以後也以方瑞達署名。

方瑞達幾歲就入私塾讀書，大概在 5-6 歲，天資充盈，智慧過人，從小就展示了驚人的天賦和記憶力。繪畫，詩歌，數理數學，玩具模型，特別是美麗的大自然，藍天白雲，星星月亮太陽，引起了極大的好奇和興趣。這大概就是他童心萌動的開始吧。誰知這可能是幼稚的玩耍而已，結果竟然使他走向了一天極其廣闊的世界大道，穹蒼之道。記得，有一次他呆在田野地撿野菜（60 年大饑荒時年），他讀書之後，靜靜躺在草地上遠望著天空的太陽，雲朵，還有數不清的星星。。。。。天色晚了，他望著天空逐漸感到天際的美麗廣大，但又有一絲恐懼。。。。。誰料到，幾十年之後，他夢迴縈繞，太陽，月亮，火星，金星，星際世界，開始研究天文地理，天體力學，天體物理，衛星飛船。也許是一種偶然的巧合吧。

不少人稱他為：神通，天才。但他堅決否認，稱自己只不過是一個不輟勞作的耕夫和工匠而已。事實上，他十分清晰，勤學好問，善於學習，廢寢忘食，通宵達旦。不論中小學，不論大學，他都是下苦功夫攻讀各類課程，同時學習研讀各科類專業的書籍，在各種各樣的圖書館飽覽群書，在世界各地的圖書館大學城，他都留下難忘的印跡。他不僅學本科專業，而且跨學科跨專業研讀，青少年時代就數次跳級學習，一般人難以想像。他對天文地理宇宙的研究，世界上早在青少年時代就開始了，而並不是在國外成年之後。在國外，研究資源和條件相當好，這就無疑讓他展開翅膀高高飛翔。左右開弓，多管齊下，收斂和發散齊備。從圖書館到實驗室，從書齋到社會，嚴謹，求實，探尋世界的無窮奧秘，志在必得。

方瑞達有名言：“人生的價值並不在於世界和人類能夠給與你什麼，而首先是你能夠為人類和這個世界提供什麼。”這就是他最真實的心理寫照。

也許有人會問到他在人生之年之後，會有什麼遺言遺囑之類。他爽朗地一笑，坦然回答：“在大海，在高原，在山巒，或許在星際天邊，月球，火星，我都十分滿足。”也許，這就是他的遺囑或遺願。因為他十分崇尚自然和宇宙。是的，他的足跡遍及世界，他的研究遍及世界，他的聲音傳遍世界，他的朋友和同伴遍及世界。多少萬年之後，人們都會銘記在心。

方瑞達，男，漢族，1949年出生於5月13日，上海（其他傳記被認為是1950 4月，實際上重複了毫無根據的斷言，應該是1949年5月13日，其他不準確，這將取勝。方瑞達（1949年，出生於上海5月13日，物理學家，天文學家，宇宙學家，地質學家，生物學家，航空航天科學家，醫師，哲學家，思想家，宗教學家，人類學家，社會學家，作曲家，畫家，作家，經濟學家，發明家，教育家）。方瑞達，又稱方睿，方睿，方瑞達，瑞達芳，男，漢族，出生於上海1949-，原名木南，也好，華麗，方達，豫鹿，徐開唐海景等，物理學家，哲學家，天文學家，作家，經濟學家，宇宙學家，在國外大學學習，博士預科班，*vistor*，高級研討會，澳大利亞大學，康奈爾大學，莫斯科國立大學，日內瓦大學，理工大學，人民大學，湖南大學，農學院，工大等院校，曾經有中外大學包括借讀，寄讀，預科，函授等，科研院所，實驗室，實驗室，外國商業企業，科技公司等的工作和研究，他擔任過各種角色。高級研究員，教授，現在瑞士，比利時等諮詢和技術顧問，技術專家，業務總監，教授，設計專家。包括發現研究：中央公園轉移定理（1985年，在羅馬，巴黎，比利時，超自旋矢量場，超自旋定理）：在軌道“場”定理時代部落旋轉矢量初始轉向狀態，基態自旋微分和積分微積分，（1965-1988，歐洲，法國，荷蘭，填充場定理（1976-1986年在阿根廷，日本，德國，中國研究）；從木星理論中心（1986-1993-2000，英國，美國，法國）：空間和時間簡單剪切模型（1965-1986，挪威，瑞典，俄羅斯，加拿大和地中海等）：空穴地震波場（1982-1997，澳大利亞，中國）：大型跨境活動（1986-1996年，在美國，南非，瑞士，智利，新西蘭）：基因衍生的TE超導神經元的旋轉機制（從1973年到1990年，在哥本哈根，斯德哥爾摩，伯爾尼等），神經反射弧基因的癌症超導效應，地震 *sanrososy* 儀器等自然和混合軌道 *tr* 注射語言（歐洲1992-1999國外，研究神經生理學，腦研究.-主要發明：醫學治療輔助地震 *sanrososy* 儀器等，研究論文和發明。科學發現和技術發明和其他著作，以及其他作品。中外名人傳記，劍橋傳記，世界科學家，世界著名百科全書，IBC / *Abi* 等名人詞典和世界主要網站集。世界主要網站，國際網站都有相關信息。方瑞達曾經短暫使用過“*smith*”等筆名，但後人常以“*FD Smith*”或 *Smith-Fangruida*”混稱，他為何喜愛這個英文筆名，原因就是他在歐美

等國學習生活研究工作等，再就是他秉持自由理性，反對高高在上，自以為是，堅持自由平等博愛理性，反對別人神話自己美化自己。 *Smith*，英語就是工匠，鍛工之意，在英語國家很流行，方瑞達對此十分讚賞。任何極端和偏激，他都給與無情的批判。至爱尊师 天穹 圣灵 万世先宗 九星智理 -----哲学大师，科学领袖,人類的導師，良師益友。上帝和宙斯，自由和理性，太陽之神，宇宙浩淼無垠，博大精深。

上帝（*YHWH, God*，神）是猶太教、基督教、伊斯蘭教、創造宇宙的神。往往被視為宗教信徒至高無上的信仰，在基督教中，上帝是永恆的存在，創造和治理世界。有神論稱，中國人稱之為老天爺。（泛指）上帝是宇宙的支撐和創造者。自然神論說，上帝是宇宙的創造者。泛神論則認為，上帝是宇宙的本身。基督教相信上帝是既超然。英文中的 *god* 和德

文裡的 *Gutt* 都源自基督教盛行前的印歐語系中的古哥特語 *guth*,原意是指“受祈求者”或

“所祭祀者”，詞根是“鑄造”指鑄造而成的神像。希臘以宙斯為眾神之主，羅馬以裘比特為眾神之主；印度古代的神，很複雜，而且時常變更他們的地位，印度原始神是特尤斯，它與希臘的宙斯及羅馬的裘比特是同一語，但在吠陀神界最有力的卻是婆樓那（司法神），空界的大神是因陀羅（雷神），地界的大神是阿耆尼（火神），地獄神為耶摩王（但它是在天上）。

Fngruida script works classic clips and compilation 2012v.2.43 revision

*version2012 * {2012V2.43 revision, electronic version of Chinese, English
bilingual control}.*

Editor Mr. Alexander Miss. Adline.

Fangruida, born in Shanghai in 1950, studied early in Europe and the United States. Scientist, philosopher, thinker, sociologist, anthropologist, writer, dramatist, poet. His main contribution is in the field of natural sciences, superconvex law, high-speed heavy non-chemical fuel rockets and so on. High poly-compound new natural structuralist philosophy, new natural rational structuralism and new social rational structuralism and so on. In addition, Fang Ruida in early and middle and late years, but also created a lot of literary and artistic works, worthy of the classic. Some published a fragment of the work. Fang Ruida engaged in busy natural science research while also spare time to create some literary works, such as painting "fields", poetry and poetry, and then there are many literary and artistic works circulating in the world, the script and so on. Due to space limitations and copyright protection, only representative classic original works can be simply disclosed for readers at home and abroad to enjoy. Although simple, attentive readers can still look out for it. Believe that with the passage of time, these plays or works will be dugged out, show in front of the world. Here, mainly to provide directory, script outline, for research. As for the full appreciation, you need more diction, the script includes English, French, Russian, Spanish, Arabic, Chinese and so on. Many of Fang Rui Da's dramatic productions are world-wide, and his teenage years have studied 25 languages all over the world, which is very helpful for his study, research

and literary creation. His works are mostly romantic and passionate, natural, warm and warm, pure and natural, showing life beauty and natural beauty. He has lived and studied in other countries for many years and has a wide range of experience. Therefore, he has such an idea. For everyone to enjoy. Fang Ruida literary works are not many handed down in the world, his life's main energy is the field of natural sciences and philosophy and social sciences, religion, humanities, which accounted for the vast majority of his life, literary creation, script, novels There are not many poems, paintings, music, etc. Therefore, the selection of compilation of works mostly clips and the like, mainly for everyone to read the product reading. Of course, the selected works are basically famous play. Papers, foreign million words, such as trilogy and the like, masterpieces, but famous masterpiece is not all long masterpiece, the key lies in the content and value of the work. This is the basic purpose of editors, a few words to readers. Fly in the ointment, very sorry. As for the full compilation of the full text of the publication is what happened after the current can only provide these, please forgive me. After editing later made. Congratulations! 80's southern country. Several young people elated out of the school gate.

Secondary schools have been graduated, with a complex joyful mood, laughing and walking in the fields. The sun has just set off, the birds fly, a golden field. . . .

Yan Yin and Xiao Xiao, Lan Lan and Min Min. . . . Classmate friend, The twilight of the setting sun shines upon the fields of the earth, setting off their smiling faces. . . . Yan Yin: I still my old idea, go to college chant. Lan Lan:

Expansion of enrollment this year, Beijing and Shanghai should expand

enrollment. . . . Minmin: Of course, this is good news, it is worth everyone to

celebrate. Lanlan: Tomorrow, let's get together to celebrate this great news. Yan

Yin: That is, that is. Mr. Liu has already told me. Xiaoxiao: Well, of course.

However, I still my little ninety-nine, ready to work Bai. Minmin: You, always working to work, so worthless. The class a few top workers? People have to go abroad to study, the United States, France, Germany, Japan, or Russia, Italy, Rome is what it is. . . . Lan Lan: Is not it, people are running abroad, how old are you? The young people talked loudly about the debate.

Fields, stream flowing, birds singing truth.

Lu Sa is about to enter the world famous school, his high school friend and lover Mianna came unexpectedly to his hometown and he separately. Different lifestyles, different interests, family Beijing is not only the same. Close to close

when the classmate, and now will soon bid farewell, it is inevitable difficult to distinguish. Youth, friendship or dim love, vague, hidden when the present.

The story goes back to their teenage years, with their parents having their own experiences. Lu Sa's father is a university professor, his mother is a troupe of actors; Mianna's father is an authentic peasant, the mother is a simple and kind farmer woman. During the Cultural Revolution, two families met by accident. University professors and art troupes cast them down to the countryside. They lived in the barn next door to the Mianner family and were supervised and transformed by the poor and poor middle peasants. At this time, Lu Sa and the first meeting of the Mia Yana both unfamiliar and afraid, two unknown children, each other began to contact and talk.

Mianna: Where did you come from? Lu Sa: me. . I'm from there. Mianna: How far is there? Lu Sa: Well, far and away, take the train need to go day and night, take a car for several days. Miana naive smile: Which, take a cart, take a carriage?

Lu Sa: I can not tell. Dad said that thousands of miles it. Mianna: What about your mother? Lu Sa shook his head, fingers pointing to the mother just returned from work in the ground

. Mother rubbed the mud in her hand and smiled and pulled her son in her arms.

"Cold? Scurry, look, my mother gave you pick up the wild berries from the ground, come, Nana, you come."

Mianna's father is the production team leader, warm and welcoming, a few years ago because almost engaged in sideline as a target of criticism in the village and county. Mom is more refreshing, especially like to help others, even when the situation is very serious, but also willing to help others. For the arrival of Lu Sa family, although it is the village arrangement, the couple I did not mind too much, but how many heart some grudges. Especially the era of surging. The village a lot of gossip. These, for the young and ignorant children, it is even more an indescribable pain and suffering.

Childhood adolescents, the initial acceptance of this from their dim memories began.

A flash is ten years later, Lu Sa and Mianna have entered the agricultural middle school, and, classmates, the two people's contacts and exchanges deepening with age. Lu Sa's father has returned to the provincial capital as Dean, the mother became a performing artist. Mianna's father became a contract captain, his mother is working in the city. In a construction project, his father was injured, his mother was sick and his family life was in a dilemma. Lu Sa's father helped energetically, while his mother was somewhat annoyed. She is particularly opposed to her son and Mianna's engagement. However, youthful friendship and love are great forces, and the two young people always fall in love with each other. New Year's Eve, Lu Sa's home need to recruit a nanny, mom Lu Sa

students to help find someone, after twists and turns, finally got it, open the door and looked surprised: turned out to be Mia's mother.

May, flowers bloom. Wild, campfire. "Youth Friendship Waltz".

The teachers and students danced and the lights blinked.

Lu Sa and Mianna gently Man dance.

Lu Sa: The entrance exam soon, are you nervous?

Mianna: A little, but I'm only scared -

Lu Sa: I'm afraid - name down Sun Hill. . . ?

Mianna: Me. . . Some . . . Tense, afraid of poor grades, and sometimes eat to sleep. . .

Lu Sa: Do not be so nervous, to relax, relax, relax. . . Otherwise, you will get mental anxiety disorder.

Mianna: Go to you, I'm not that young. . .

Mianna dance some panic, accidentally stepped on Lu Sousa's instep. She was shy: "I'm sorry, I did not mean ..."

Lu Sa: these days should pay close attention to review, I want to study with you at night

Mianna: OK. However, I have other plans, in case. . . . I have a new choice.

Lu Sa: What choice?

Mianna:. . . . Guess what?

Lu Sa: Still confidential?

Mianna: Me. . . Now do not want to say, tell you later. . . .

Waltz intense tension, bonfire light up their faces.

Melodious crisp singing: high green mountains, clear water, beautiful fields, fertile land Golden wheat Blink golden light, Valley of the Valley Climbing in the singing of the fragrance of the orchard, the vast ranch Winding road The new plant Trinidad Wonderful miles, ah, lovely home, lovely home My heart children fly with you to the distant lovely home, lovely home My heart children fly with you to the distance ----- Village Elementary school classroom. Lang Lang read the children came the sound: Tian leisure, May people twice as busy. Night wind from the south, wheat covered Long Yellow. Meimei was reading aloud with the children. Suddenly, a familiar figure appeared out of the window of the classroom. She turned a little and looked out of the window. Mei Mei hurried out

of the classroom: what are you doing? Sea whispered: a fairy grandmother, far heard your voice ----- Tian leisure, May people twice as busy. Night wind from the south, wheat covered Long Yellow. Mei Mei; quick to say something serious. Xiaohai: Just now I heard Nanfang Village, Tian Fugui, saying that we also want to expand the township agricultural demonstration area, adding a few acres of arable land ,,,, Mei Mei: Great, my brother is more looking forward to . . . Xiaohai: Yesterday, I went to the county trip, happened to see the liu county magistrate. He praised your brother on the one hand, saying that he is a wealthy expert in the county, planting big. Meimei: Okay, okay, I still have to go to school and go home and say it again. . . . Do not forget we catch up tomorrow, at six o'clock in the big theater temple East meet. Xiao Han laugh, waved away. County government compound. Office building room, noisy. Mayor Liu is chairing the county agricultural demonstration field commendation ceremony. Liu County Magistrate: Now, please Yang Xiaolin Tan Village speak to talk about the rich experience. With applause, Yang Xiaolin embarked on the meeting: folks, since Mr. Liu asked me to say a few words, then I will say a few words. . . . Meeting room outside. Bugu is watching the talking Yang Xiaolin. Unexpectedly, someone covered her hands with both hands. Bush Valley: Who, do not affect other people's meetings. She looked back, joked: ah, you wow. Scared me. Mummified: Cuckoo sister, which gust you blowing? You come to the county government, you go to study abroad it? Cloth hee hee smile: just off the plane in the morning, immediately went to the county. Just ran into

the county agricultural demonstration field promotion commendation conference, you see, all covered with red color hung, really lively, I can not come?

Trunk: Look at what you said, really. Right, cloth Gujie, you must stay in the county back this time, you can have a lot of useless. . . . Besides, to the age of marriage, can not miss this opportunity 嘛. Many people want to work in the county, they do not have your eyes ah. . . . Cloth Valley: Do not talk nonsense, a little noise, okay? Liu County Office. Liu County Magistrate: Cuckoo ah, this time you come back, after repeated studies in the county that you stay in the county engaged in agricultural technology more appropriate. Secretary Huang specifically mentioned you so that you will be in charge of agricultural technology and work out specific arrangements. Bush Valley: The decision of the county leadership, of course, I must obey. However, I think it is better for me to go to work now, for example. . . . Liu Magistrate thought: that is also, I have had such an idea. However, there are indeed too few women cadres like you. . . . Your opinion and request, the county can be considered. . . . 浣 Creek Village Council. Sui Village agricultural demonstration field planning map before. Several village cadres and several veteran youth are referring to it. Village cadres: Yes, it is here, Ferris wheel, repair a few terraces; there, after the mountain ridge, and then transform a few hundred acres of saline land. . . . Villagers: all made irrigated, large area sprinkler irrigation. . . . Cited 浣 streams, a good idea farmer: Here, the Aeolus Temple over there, yes, yes, there, in addition to the new villagers residential buildings, but also save dozens of acres of arable

land. . . . Horse cannons: Do not look at this mountain that mountain, we 浣
Creek Village may not have so much land, but also save what? Besides, the
township and the province developers, yes, and Hong Kong, Taiwan, what the
United States, France, Russia's big boss, right, big boss, come to Taka River to
invest in the construction of what the scenery Tourist area, what is the summer
resort. . . . Youth: Horse cannons, Mountain Resort, do you know where it is?
It is in Chengde, the Qing emperor summer summer place. . . . Horse cannons:
Right, right, who is right, summer resort is. . . Yes . . . Is the Qing emperor
summer summer place, look at me, confused friends. . . Ha ha ha ,,, Small sea:
confused, you do not talk nonsense. . . Field two seedlings: horse cannons, and
then run around, beware of others cut your bad tongue. . . Horse artillery: Oh,
you these Wazi, mouth can be really powerful, think of the beginning, my horse
artillery went to all corners of the country, you guys, you are still Niangzuli turn
fine. Humph. . . . Horse cannons go away. Just go out, hit the rush rush to the
cloth valley. Horse artillery surprised: ah, it is you, cloth valley, what time to
come back? Bush Valley: Horse Accounting, what are you doing? Horse cannons:
This is not, beam headmaster layout, agricultural demonstration field planning,
planning, ready to engage in dozens of acres, no, no, engage in a few hundred
acres. . . Public: cloth valley. Bugu. Cloth Valley: This trip to River Creek, to live
a few days more. Let me make the county town agricultural Demonstration
project. Horse cannons: Well wow, cloth valley, you have to live a few more days.
Bugu: 浣 Creek Village mu standard field plan is very good, we must come up

with a down-to-earth, can not put flowers shelves, to work out. Right, this is the book I brought back from the province, agricultural technical manuals, and the seedlings introduced from abroad, we will soon introduce. . . . Field two Miao: Shashi time to species that way? Bugu: In the village at night to open training, but also for cable television broadcast in the county.

"Flower Rose Garden" international life and international Life drama. Love and International Love The story of Hongyunxiaksiayu shows the lives, love and love of the youth in the 1920s and 1930s as well as the times. Many historical events and common life sentiments are interweaved. -----

"The sky of clouds, the sea of water"

----- Story Occurred in the period before and after the Revolution, late Qing Dynasty. Major General XinJun battalion commander (post of commander, post commander (battalion Commander, the new army in the late Qing Dynasty) Pan Shigang hurriedly returned to the hometown of Jiangnan to visit the long-awaited parents and unmarried wife Ah Yin, who knows the way home Even unexpected things happened: at the ferry terminal, several police officers and police officers were hunting for a young woman .Pan

Shigang not too much consideration, immediately pull the gun to save .At the head of the fat police chanting, screaming , While blowing a siren: "Seize her and seize her, she is a revolutionary party, she is a revolutionary party." Pan Shigang stopped fat police officer's way, fat police officers wanted to anger, take a closer look, this comeback is not small, Hurried to accompany laughed: "I dare to ask, yes, yes" Pan Shigang sneered: "arrest people do not look at the hour, but do not let her run" In the distance shooting: "Run over there and go chase and chase fast." After the police and the police quickly chased after it, Pan Shigang quickly chased the other side and the crowd on the pier was in chaos. Pan Shigang found behind the cargo box Woman who has been injured She rattled the ground, but she was out of her body and fell back to the ground .Pan Shigang lifted her up and hurriedly hid in a library with her. "You - you are" "Do not ask I was ----- "Sirens loudly ringing, fat officer is screaming shouted:" What? Let her run, you, you guys, really a bunch of barrels, and even a pussy could not catch Go back and give you a few accounts. "Several police quickly laughed and said:" Sheriff, there are things to say, the last time the twins are not slipped under your noses, and this time back " "No fucking bullshit, fast to me inside and outside search." Beach. A fishing boat. Waves rolling. Pan Shigang dressing bandage wounds for women. "An old man said:" Gang Gang, everything is arranged, and out Haikou, Hong Kong, then there will be some people cited. You rest assured. "Pan Shigang:" Zhao Daddy, then I thank you too much. She was also unconscious, be sure to send the sea soon, or, A red There will be

life-threatening. "A few years ago, France Notre Dame de Paris And Ahong had briefly met. The secret meeting of the Alliance was undergoing tension. Pan Shigang received a directive asking him to return home secretly and take the opportunity to enter the new army. A-strong, chief of the Allied Association, told him: "Now that the revolutionary parties across the country have already started their actions, The Qing dynasty will soon fall apart. You go back this time, mainly to guide the organization of armed uprising, the mutiny, the organization there are many people with your action code of action "Red Rose", must be kept confidential Guangzhou Uprising, Qiu Jin things up, We have sacrificed many comrades, including their actions, so after careful study, we decided to send you back to complete this important operation. In addition, we would like to invite a woman lady to assist in your actions. "Pan Shigang: "Yes, she, both civil and military, gun law is accurate, can be said to be a hundred paces." "Reliable?" "She is also a military officer graduated from school, or Japan's top non-commissioned officers school it." At this time, a Slender and beautiful girl appeared in front of him. She is a red. Army officer school. A red and the league's officers and Bing is secretly meeting. A red: "This is today's newspaper, and the Qing government arrests people everywhere." Officers and soldiers steal private advice. An officer: "The next step should be how to do?" Another officer: "Lin instructors, you said that we have a change in the current plan of action?" A red: "Red Rose action to continue. Must grab in front of the enemy, do Ready for the armed uprising. "Islands. Pan Shigang and A red

laughing on the beach. Seabirds flying in the distance. Sky of clouds, the sea of water, blue sea and blue sky, looking at the End of the World Road, the sky, the vast expanse of love, cut constantly, when can we meet? Sky of clouds, sea of clouds of water, sea of blue water blue sky, the sky of love, sky blue, sea blue sea waves, the four Chung Yong, thousands of sails volume Juan Lan. Sky of clouds, the sea of blue water blue sky, looking across the horizon sky blue, blue sea like the sea, where the dream of long, long, long tears? Love like the sea, tears flow, where the moon and then round again? Pan Shigang: "I heard you have not married?" A red: "What, you?" Pan Shigang: "Well, I have long been engaged, and other activities will be held after the wedding." A red: "Do not dare to dare me." A red; "Last meeting in Paris, people think you are still a person To Japan, did not hear you say that with a fiancée "Pan Shigang;" It's a secret organization, of course I can not tell you, even my parents do not know. " Sea, waves. blue sea, blue sky. Barracks. Pan Shigang room. Simple bed, wall hanging banners. "Essay article, a boat Rong clothing." Pan Shigang and Ahong Aqiang and others are meeting. Pan Shigang: "The situation in the world has developed rapidly. Although the European powers do not express any obvious objections to Sun Yat-sen's claim, they still have unrealistic fantasies about the Manchu people, who are short-sighted and need only to protect their interests in China. Therefore, , Neither willing to contribute, not willing to come forward against the Manchu dynasty ". A-Qiang: "They nominally supported Mr. Sun, secretly engaging with the Manchu government, and therefore can not fantasize about

them. Only by mobilizing the people can we strengthen our power." "So:" A red :

"To save hundreds of millions of our compatriots in dire straits, we must mobilize the masses of workers and peasants to succeed in the revolution." Pan Shigang:

"In a few days, Huang Xing will come and give concrete guidance and wisdom to our next move." Jiangnan Countryside. Music "Choi Chasing the Moon" sound.

Ah Yin home. Ah Yin is rice. A villager quickly ran to: "Ah Yin, just letter from the moment." Ah Yin: "You miss me, what's the good news?" Village Guizuan said:

"..... As the military is busy, the troops I have been called, I temporarily can not go back to visit their relatives. I hope you take care of yourself. "Ain was surprised to tears out" Argus, when you can come back. "Ah Yin mother:" This child, this child, Ah Yin, my mother 's hardship when I can stay up? "Ah Yin mother weeps. Beijing, foreign embassies. European and American ambassadors are whispering. Manchu officials embarked. Adjutant: "We have already expressed our government's position that we will not interfere and we will only need to protect our interests in China ... Otherwise, diplomats attach:" For your country's politics, But much care, our heads only care about everything we do

we will not get involved in your conflict. " The Manchu official continued: "On behalf of the Qing government, I am very satisfied with your position and will satisfy other conditions as long as you do not interfere in the internal affairs that will not interfere with the Qing government." Ambassador smiled and raised his glass: Your diplomatic speech is very beautiful and will make all of you here intoxicated. "Adjutant:" It is a consistent practice for us to remain neutral, and

we are always suspicious of whether or not the revolutionary party can take control of the situation. "Ambassador:" We still intended and large The Qing government dealt with, for example, Yuan Shikai, a pivotal figure in China. "In the late afternoon. Glittering ballroom. Pan Shigang drink while watching the watch. At this time, several casual wear spy into the ballroom. Plain clothes A: "Must be pegged to him, can not let him run." A strong and A red dress stylish into the ballroom. Plaincloth B: "It's her." Then a clothing A: "Fast, stare at her, one should not let go." Plainclothes C: "One can not run." A red plainclothes track, indicating A Qiang go away. Pan Shidou hurriedly welcomed it. Uniform clothing A: "You are not Pan instructors? More elegant forget things, please." Pan Shigang stretched arms to hold a red arm. Plaincloth B: "Slow, we have to search." Poon Likang: "What to search? Bastard." A slap hit him on his face. Plaincloth B: "You, you, you, what is it, I kill you." He just fired the gun, Pan Ligang haha smiled, smoothly and slap in the face, played plain-clothes shouting. He was garrison Pan Yingchang, you really blind dog eyes, looking for bitter eating. "He quickly laughed:" Pan instructors , Angry .This brother is not long-term, actually offended the Executive "He turned to A red:" The lady, may I ask "Pan Shigang:" He is my special dance partner, just from Italy back. "Uniformed, repeatedly lose laughter. "Sir, we are also on official business." He whispered to Pan's ear: "The boss orders and scrutinizes the suspects." The Revolutionary Party has been rampant in recent days, saying what red roses and white roses must act in strict precautions. Pan suspicion of members of the

revolutionary party, killing regardless. "Pan Shigong derided and asked:" Look, I like it? The lady like? "Uniform clothing:" Where, where is a misunderstanding. A lot of implication. " Dance music sounded. Cloud of days, sea of water. . . .

Pan Shigang and A red dancing, winning a round of applause. Pan Shigang: "Thank you for your love, I am honored to be invited to today. I thank you very much once again for all the rewards. Today, all of you here are celebrities, full of high spirits and thank you very much." Turning to the public: "Sorry, just happened A little ball, everyone happy, do not bother. Gentleman: "In the morning, the police station and the Qing government issued a circular saying that the rebellion of the chaos in Wuchang could take it seriously? Celebrities echoed: "The court and the emperor, whether to send troops to suppress? "" Will we mutiny here too? Pan Shigang: "calm, calm. Everything will not happen. My brethren will come forward, protect the Qing, protect you. "A red:" If so terrible, Pan dare to dignitaries here banquet, held a grand ball to wash my dust.

Applause and applause: "Miss Red said very much, the remark is very. Messire priests, Hugh think. Dance accompanied the theme song ringing the ballroom. Outside the library flower beds. A red is reading newspapers. Pan Shigang also read the book. Two whispered softly. A red: "This is a map of red rose action, as well as the armory The internal deployment map, "Pan Shigang:" must be accurate, otherwise, will pay a great sacrifice. "A red:" What the revolution, but also not bleeding? This action, I must attend. Pan Shigang: "I do not agree with your choice. ""why? "This operation is very dangerous. "What, you? "" Me, I am

front-line command, but also when deserters? "Of course, I know it." However, I will not ----- "" Bullets and shells without long eyes. . . . "Ah red:" I have long eyes, will not necessarily not. Pan Shigang: "No, this is the organization's decision and must be obeyed." "Ah red:" I have already prepared, Argus, this action, I must attend. Pan Shigang ponder: "Let me think about it again, I look back to them and then look at it, to the final decision. "A red gratified him hugged. The two looked at each other. Pan Shigang: "A red, I hope you can live to see the victory of the day. "A red:" I also hope you can live, to welcome the arrival of victory. Pan Shigang: "After the victory, I will hold a grand wedding. A red, you must attend. "A red:" I must, I must attend. "Ah red eyes moist:" In case, if I can not participate, "she choked:" You bless her for me. . . . "Pan Shigang:" You must be sure to participate, participate. . . . "The two hugged each other warmly and kissed each other The theme of music Cloud of the sky, the water of the sea Cloud of heaven, the sea of blue water blue sky, looking at the End of the World Road, gray, Shear constantly, when can we meet? The clouds of the sky, the sea of clouds of water, the sea of blue water blue sky, the sea of blue sky, blue sky, sea blue sea waves, four sea, thousands of sail competition

Volume Ju Lan. Clouds, the sea of blue water blue sky, looking at the End of the World sky blue sky, sea blue, love like the sea, tears and dreams where the moon and then round? Love like the sea, tears flow, where dreams in the moon again? Beijing , The Forbidden City .Taihe Temple .LongyuThe Empress, carrying 津 And civil and military ministers are discussing countermeasures. Insiders

come to report: "Yuan to come to the audience. "Contained:" The early years of the suppression of the Taiping Empress in Empress Dowager Cixi was relied on by Zeng Guofan and others like the First Army of the Hunan Province. But today, the fighting strength of the eight-banner children has been almost exhausted, the state treasury is empty, lack of forage, what is it? " Significantly different phenomenon. "Contains 沚:" Eight Banners are all descendants of the court, how to rebel fears? Dare to be your men, you have to check and do as soon as possible. "Minister:" Sun Wen chaos party thief, we must eradicate, rushed to kill. "Generals:" There are eight disciples in my banner, Sun Wen chaos thief into no climate. Yuan Shikai trembled: "Which can not but prevent ah. Carry soda sneer: "Qing empire rock solid, Sun Wen chaos party. . . . Ha ha ha, 蚍蜉 shake trees easier said than done. Afraid of it, I'm afraid interracial army horse different heart. . . . "Yuan Shikai terrified:" Where, Yuan loyal to the court, die indifferent. Small station camp soldiers, but also care Daqing Hongfu, my men and horses are not afraid to move, when the nine ethnic groups to report to the court. "Queen Mother, carrying 沚 and all the courtiers could not help but laugh together." loudly said: "Yuan adults, strictly prevent all over to strengthen prevention, cut off the chaos. For the new army, those who are associated with the revolutionary party are killed. You can play back later. "Yuan Shikai Kneel Xie Road:" Sinchen understand that all those who are associated with the revolutionary party, around the corner to kill. "Wuchang uprising a few days .News Newspaper headline: Wuchang chaos party sinful new army

insurgency occupied the Warlord House Jiangnan .Pan ShigangAnd all the officers are secret .A soldier came to report;" Wuchang has acted, Changsha, Shanxi also act Woke up. Pan Shigang: "Shanghai has also started its operation. We must act now. According to the current situation changes, we act now. Full implementation of the red rose action. . A red: "The uprising time is set at 10 o'clock tonight, by the New Army infantry battalion and artillery even preempted the armory, the other forces in three echelon, a team occupied the government quickly rushed to the ground, the second team quickly wiped out the remaining Eight Banners And other clear soldiers, three teams work together to prevent the reinforcement of foreign enemies, "Pan Shigang:" Red Rose unchanged. Move faster, to prevent Qing counterattack. "A red;" League will decide, I am responsible for interim command. " After a fierce gunfire. Pan Shigang led the uprising by the New Army rushed to kill. He looks for a red: A red, A red. However, no one answered. Qing defeat, fled around. A Qiang: The enemy has escaped, our troops have occupied the whole city. Pan Shigang excitedly said: "As soon as the whole nation is energized, the revolutionary military government will be established." He finally found Ahong in the flow of flowers. He hugged her tightly and shouted: "A red, A red, is me, is me, you wake up" A red slowly opens his eyes: "A Gang, I I ... I die,

There is in my clothes . Have . . . There is a gift for you and Ash, you must wear it on her hand. . . . "Pan:" A red, A red, A red. "Pan Shigang:" A red, A red

----- "He red embroidered bag pulled out of his red pocket, slowly opened,
which is a golden Ring Pan Shigang: "A red, A red, you can not you can not
-----" people: "A red, you can not leave us, you can not leave us" A red: "No,
I have Very satisfied. I. . . . I am very happy, a little bit. . . . Not painful. . . .
When I joined the revolution, I was ready to go. . . Ready. . . . "A red closed his
eyes .A total of erection hat erected, silence for her .Pan ShigangA shooter:"
Comrades, move on. A few months later, A Yin and Pan Shigang together in the
marching ship. Long fleet, the mighty team blue sea, blue sky Miles. Is the
whistle, anchored set sail ... The sea, white clouds, blue sky, endless ... Theme
music: the sky of clouds, the sea of water, blue sky, looking at the End of the

----- "Bonfire on the Amazon" (Author's signature:

Smith (fangruida) was originally published when the pen name Smith.) Synopsis:

A team of scientists from all over the world will conduct a global study of the

natural living environment and will conduct a comprehensive study of the

deserts of the Gobi, the Arctic, deserts and oceans in the Gobi Desert to provide

human beings with solutions to the natural environment in the world. From the

snow-covered Antarctic Research Station to come here, the Expedition crosses

the mountains and makes expeditions in the Amazon basin. In the process of

studying biodiversity and the natural environment, they underestimated the

difficulties and setbacks and failed, There are new discoveries and achievements

story mysterious and colorful, interspersed scientist friendship and love life. The

main characters - Alvis scientists, professors, Expedition captain. Dr. Obar.

Multi-meter scientist. Boris scientist Torah test team with the team reporter,

photographer. Annie expedition team member Dr. Hu Hai. Lena expedition team

members. Jesse expedition members, explorers. Ivanov Scientist. Halosuo

expedition team members. Fraunhofer team team doctor. Hassan expedition

team members. Uno Chien ex-team members. Ramcoe team guide.

----- - CERN. Domi

is talking to a few experts. Many meters: In a few days, the expedition will come

back from Antarctica. Lena: I heard that I'm going to the Andes, the Amazon. . .

Phone suddenly remembered. Dami: I am. . . Yes, it is me. . . what The day

after tomorrow to report. Lena: Oh, that's great. . . . Let's go together.

Bethlehem. Scientific expedition members in the tour. Antarctic expedition

station. Snowy, white world. Expedition team members flew in a snowmobile.

The towering Andes, rugged mountain trail, expedition team members are

rapidly crossing the highway of death. Amazon rainforest. Expedition team

members in the swamp difficult. The Amazon, the beautiful scenery, flowers in

full bloom. Expedition team campfire camp held, sweet music came from time

to time. Myrtle, laurel, palm, acacia, rosewood, brazil fruit and rubber tree.

Mahogany and Amazon cedar. Wild animals jaguar, manatee, jackal, red deer,

capybara and many rodents, monkeys and more. Expedition team members

enjoy the beautiful natural landscape. Alves: Some experts estimate that there

are over 75,000 trees and 150,000 higher plants per square kilometer,

including 90,000 tons of plant biomass. Annie: One fifth of the world's birds live

in the Amazon rainforest. Lena: So beautiful, so beautiful. Uno: Amazon, it's

great. . . . The tributaries of the Amazon, flooding, flooding large areas of

land. . . . The wide river passes by. A few people flew by the river in the turbulent

flies. It turned out that science expedition team in the torrent of marching. . . .

In the thick rain forest, they spent an unforgettable sleepless night. A few days

ago, they just came out from the Takla Desert, where they conducted

simulations of human landing on Mars and landing on Jupiter satellites.

In the Arctic, in the Antarctic, in the glacier, in the desert, in the ocean, on the cliffs, in the Gobi Desert, in the primeval forest.

*The great figure that affects the world for 1 million years – Smith (Fangruida)

Genus. W 2012

nature - The universe is very beautiful and contoured. Human beings and all living species are actually combined with natural material bodies and embraced together. Living species and other species can survive or exist not only in the Earth, but in the solar system or in the Milky Way and the Milky Way. Of course, this may be different from the human life species of the Earth, and may be a heterogeneous life of the extreme conditions. Not surprisingly. As for the infinite changes and wonders of the universe, far more than what humans can observe and realize.

The eyes of great scientist philosophers not only see thousands of thousands of years of historical procedures and millions of light years and millions of solar years of vast space, but also deep insight and strictness. The detection power can perfectly glimpse the farther infinity and the farther future.

Science is the most important cornerstone of philosophy. (Smith Fang remarks quotes), and great philosophy is the greatest weapon to create the world.

The universe is not a paradise, the peacock is as beautiful as the screen. Similarly, the human society is not always a bird-like flower, colorful, and weeds can be seen everywhere. In this sense, understanding and building an idealized world will become more mature and more realistic.

The Shinto and the ladder leading to the kingdom of mankind are not human beings. In fact, it is only the unique inspiration and call of freedom and reason to give to the life of high intelligence.

The meaning of the existence of life is the movement and stimulation of the advanced activities of advanced organisms. Inanimate bodies and matter are also full of movement and excitation, except that they lack the advanced biological characteristics and mechanisms of the organism.

Standing on the moon standing on Mars, you see not only the beauty of the earth and the universe, but a new and traitual world of planets and human society. No matter how far the human footsteps can go, no matter whether nature and God can provide humans with much opportunity and success, it is enough for advanced life; of course, for the universe itself, this is irrelevant and harmless. . In a certain sense, the primitive and material nature of the universe is eternal, the planet and even the Milky Way, black holes, etc. can explode, hide or destroy, but the universe and matter are not absolutely gone, but transformed. For this, it is quite different from the birth and death of biological human organisms.

Earth rotates day by day, and life is updated every day. The world changes, the universe is universal. Everything is attributed to nature. The closer humans are to heaven, the closer they will be to the natural gods.

The greatness of mankind lies in her ability to rule the earth's world; and his smallness lies in his fact that in the universe of the great universe, he is only half of the insignificant dust particles, and there is always the danger of being ruthlessly destroyed and extinct. The living body, like the organism and the cosmic material, is nothing but a product of the natural universe. Of course, this does not mean that the recreation of a high-level living body in the sea of the universe is only a kind of hope and expectation. On the contrary, the sea is full of waves, the tranquil harbor and the island are infinite vitality.

(Repairing the Space bathing the sun, warm for thousands of years)

<Tiantian Bathing Day, Xinxin Millennium----World leader, master of science,
philosophy teacher---Smith (Fangruida) Kali 2012 >

The mountains and waters of the earth are beautiful and rich. Naturally, on the moon, on Mars, on Jupiter satellites, on Venus, Mercury, Saturn, etc., and other terrestrial planets, especially distant and vast interstellar, galaxy, and galaxy, it cannot be said that these geological elements exist. After thousands of years, after tens of thousands of years, hundreds of thousands of years later, as long as human beings still exist, he still shows the same exquisiteness and beauty.

There is no eternal life in the world (bioactive macromolecules and other high-level ones), but there is a permanent and permanent “material body”. No matter how the universe evolves, no matter whether it is a planet, a celestial body, a black hole, a dark matter, a dust, a particle, etc., no matter how the universe and the particle are hidden, how do they transform each other? The universe is called the universe, that is, the universe is the physical form. The so-called universe, which is completely empty and imaginary, does not actually exist. The universe is the transformation and transformation of matter. Even if a great scientist studies its most basic principles and state of affairs, it tends to be too abstract or too pedantic or even to empirically biased. As a result, its theory and research are full of loopholes. Even if it can be self-explanatory, it will lose its center. Into the whirlpool of research and elaboration. Of course, it is even less necessary to be referred to celebrities such as the so-called head philosophers. The universe is abstract, and it is a concrete physical material existence. It is not equivalent to the human life system, and even the south. Human wisdom and stupidity also exist, taking it for granted that creating or synthesizing some biological robots can change the universe, and it is also a great and absurd creation and magic.

For decades, centuries and centuries for politicians, strategists, thinkers and philosophers, it is indeed extraordinary; but for natural scientists, it is not worth mentioning. Natural science is not an eternal truth; but its harshness, rigor, and rigorous need to be tempered to create eternity.

Standing on the moon standing on Mars, you see not only the beauty of the earth and the universe, but a new and traitual world of planets and human society. No matter how far the human footsteps can go, no matter whether nature and God can provide humans with much opportunity and success, it is enough for advanced life; of course, for the universe itself, this is irrelevant and harmless. .

The birth of man is inversely proportional to the birth of the universe; the existence of matter is always proportional to the life of the universe.

Advanced life is only a natural necessity for the natural universe, and a positive change for the evolution of matter and organisms. If it is the opposite, the inverter will happen. The evolution of living organisms and organisms is full of variables and channels and paths.

In the vast universe, the planet explodes, the celestial body shrinks, and it occurs in extremely vast interstellars, including supergiants, superblack holes, and even the extinction and destruction of organic matter and living bodies. These are not the wonders of the world. Is this equivalent to the destruction of the universe? The two do not converge. The trillions of celestial bodies have changed dramatically, and the overall materiality of the universe is unscathed. For the human solar system, it is probably a disaster that never ends.

It is better to repeat history than to create history; to rewrite history is worse than to cast history.

Rather than portraying the entire human history as a wise glory, it is better to understand it as a bizarre and grotesque creature of the twins—long and difficult natural biological nature and gradually growing wisdom and Advanced rationality.

The world is both brilliant and embarrassing, the front and back of history or the polyhedron.

The end of human life is tantamount to the death of animal creatures. The difference is that human beings have high-end consciousness and wisdom rationality as well as the entire natural world that can be created and transformed.

。 It is not surprising that life animals, high-intelligence animals, and organic-inorganic integrated intelligent animals will appear in the future world and in the planet.
